## MARIANO FORTUNY

(Granada 1871 - Venezia 1949)

Artista, fotografo, designer... è difficile individuare quale aspetto della personalità e dell'opera di Mariano Fortuny fosse prevalente. L'intera sua produzione artistica si fonda su una straordinaria sintesi di epoche, stili e tecniche, che solo a Venezia, crogiolo di civiltà, potevano tradursi nella creazione di oggetti di alto valore estetico.

Attraverso un percorso filologico che trae ispirazione dalle nobili radici dell'arte d'Occidente e dalla magia dei paesi d'Oriente, Mariano Fortuny diventa tra gli interpreti più originali dell' "età d'argento" veneziana.

La costante ricerca sull'illuminazione lo portò a depositare una serie di brevetti, tra cui il dispositivo per il controllo dell'intensità della luce, che verrà adottato dai più prestigiosi teatri del mondo. Curioso e intraprendente si addentrò anche nell'universo della moda femminile: la sua collezione di tuniche in seta plissée, tra cui il famoso "Delphos", evocato anche da Proust nella sua Recherche, divenne un "must" di eleganza per le divine del tempo.

Artist, photographer, designer... it is hard to single out which aspect of the personality and work of Mariano Fortuny was predominant.

His entire artistic production was based on an extraordinary synthesis of worlds and eras, of styles and techniques that only in Venice, a melting pot of civilizations, could be transformed into the creation of exquisite products.

Through philological experimentation inspired by the noble roots of Western art and the magic of the Orient, Mariano Fortuny became one of the most original interpreters of Venice's "Silver Age".

His constant research into lighting led him to file a number of patents, including a device to control light intensity, used in the world's most prestigious theatres. Curious and enterprising, he even penetrated the universe of female fashion. His collection of pleated silk tunics, including the famous "Delphos" evoked by Proust in his Recherche, represented a must in elegance for chic young women of the past.

## THE TWO BRANDS

VENETIA STUDIUM® e FORTUNY® sono due volti di un'unica anima, due marchi che si fondono nel progetto culturale e straordinario che rilancia l'eleganza e il gusto novecentesco nel design delle lampade. Le lampade FORTUNY® sono prodotte in esclusiva dalla Venetia Studium, che ne detiene il marchio a livello mondiale. Ricercatezza, accorgimenti tecnici, qualità delle finiture e cura dei dettagli contraddistinguono l'originalità di ogni lampada che porta impresso il marchio FORTUNY®.

Lino Lando, artefice e fondatore dell'azienda, coltiva l'ambizione di creare oggetti nuovi che parlino il linguaggio antico dell'eleganza e del buon gusto; un sogno che condivide da anni con i figli, Luca e Matteo.

La produzione di lampade FORTUNY® nasce a Venezia e da Venezia assorbe l'atmosfera e i colori; è la città stessa, con i suoi riflessi cangianti che raccoglie l'eredità del maestro e forgia il cromatismo di tutti i prodotti Venetia Studium.

VENETIA STUDIUM® and FORTUNY® are two faces of a single coin, two names coming together in an extraordinary cultural project reviving the elegance of early 20th century tastes in the design of lamps. FORTUNY® lamps are produced exclusively by Venetia Studium, the only company in the world entitled to use the trademark.

Sophistication, refined techniques, a high quality finish and attention to detail are the distinctive features of each original lamp bearing the FORTUNY® trademark.

The ambition of the company's founder, Lino Lando, is to create new objects speaking an ancient language of elegance and good taste, a dream he shares with his sons Luca and Matteo.

Venice is the birthplace of FORTUNY® lamps and it is Venice which gives them their atmosphere and colours.

It is the city itself with its ever-changing reflections which inherits the legacy of the master and forges the colours of all Venetia Studium products.

## SILK LAMPS

In questa sezione troverete descritte caratteristiche tecniche e versatilità applicativa dei vari modelli delle lampade FORTUNY® in seta.

La seta utilizzata da Venetia Studium è tessuta con filato a fibre lunghissime, di elevata consistenza e spessore, che garantisce alle lampade resistenza e durata nel tempo. La seta, ineguagliabile filtro di luce, decorata e plasmata su strutture metalliche, trasforma ogni lampada in una vera e propria scultura, elegante, suggestiva... senza tempo.

This section describes the technical characteristics and adaptability of the various models of silk FORTUNY® lamps.

The silk used by Venetia Studium is woven from yarn with very long fibres of a good texture and thickness, making the lamps resistant and long lasting. Decorated and moulded on metal structures, silk, incomparable filter of light, transforms each lamp into a genuine and authentic sculpture, elegant, charming and timeless.

## GLASS LAMPS

Nella versione in vetro delle lampade FORTUNY®, Venetia Studium continua la secolare tradizione dei maestri vetrai veneziani, mantenendo nelle forme l'eleganza e l'originalità della seta. La lucentezza e la trasparenza del vetro esalta i raffinati decori in oro, resi ancor più preziosi dall'accostamento al metallo brunito delle corone traforate. Tutti i modelli proposti sono disponibili con ghiera o con corona.

In the glass range of the FORTUNY® lamps, Venetia Studium continues the centuries-old tradition of the Venetian master glass blowers, while retaining the elegance and originality of the shapes found in the silk version. The brilliance and transparency of the glass enhance the delicate gold decoration, made even more precious by the burnished metal of the decorative metal ring. All models proposed are available with either a metal rim or a decorative metal ring.
