**TERZANI**  
LA LUCE PENSATA

# Precious Design

Terzani's Precious Design Concept is luxury evolved. Each piece in this new lighting collection breaks the staid boundaries of traditional luxury, and incorporates stunningly modern design, cutting-edge technology, artisan craftsmanship and precious materials.

# When light meets art

The result are sculptures of light whose illumination transforms spaces through dynamic lighting and shadow effects. They create a new visual language of what luxury is, one that reflects both today's aesthetics, architecture and design traditions yet also pushes towards the future.

# Epoque, Cyclical *Light.*

Epoque is a light sculpture designed to study chiaroscuro and volumes. The result is a modern expression of these Renaissance-era techniques in a stunning chandelier. Composed of curved, organic lines, Epoque's frame is made of flexible and durable brass metal, suspended by nickel metal chains. Two bands of metal, a central elongated section and an external band of wide arcs, allows the light to envelop a room in reflections of soft light. Epoque has attracted attention from those in the design community with discerning tastes. Epoque is available in nickel, black nickel, gold and bronze finish. Design Stefano Papi & Saviz Yaghmai.

Epoque can be manufactured to work with 3000K or 2700K LED. Different dimming options on request

# Atlantis, a precious *wave*.

Seemingly alive, Atlantis' shimmering light creates a vibrant source of energy. Its mesmerizing, organic effect is created by hundreds of illuminated lengths of draped, nickel chain. Like water in the ocean, Atlantis' chains appear liquid, cascading over its gloss nickel bands and falling down towards the abyss before turning back into itself. Atlantis is composed of almost three miles of chain, meticulously hand-crafted by master italian artisans. Atlantis is available in nickel, black nickel, bronze, gold and champagne finish. Design Barlas Baylar.

# Stream, Iridescent *Light.*

A stunning design from Christian Lava, Stream is an impressive presence in any room. Stream's design exploits the physical characteristics of the materials used to envelop a room in a unique, immersive light. Here, an elegant thin metal chain appear to flow down from the undulating, nickel-plated frame. These cascading tiers project a streaking, yet tranquil, shadow throughout the room. Design Christian Lava.

# Volver, Breath of new *Light.*

At Terzani, we are fortunate to work with some of the brightest young stars in Italian design. For Volver, designer Diego Bassetti and architect Andrea Panzieri of Studio 14, protégés of Bruno Rainaldi, applied their multidisciplinary approach to create Terzani's first LED suspension light. This geometric design combines thin nickel chains with the latest in LED technology to create a light that is both elegant and modern. A breath of new light, Volver melds technology and art to achieve a new level of luxury. Available in a circular variation. Design Studio 14.

\* Only 120V version has two canopies.

# Soscik, Classic form, *Modern look.*

Reinventing the classics. With Soscik, Terzani combines traditional, artisan techniques with cutting edge technology to give the traditional chandelier a modern update. Over the plated frame, Soscik creates a dramatic and romantic effect, while still being able to compliment today's modern luxury. Available as a chandelier or a ceiling lamp, Soscik proves that modern design does not have to sacrifice luxury. Design Nicolas Terzani.

# Argent, a precious *cloud*.

With this suspension light, designer Dodo Arslan creates a shimmering cloud. Argent consists of metal discs that have been meticulously shaped by hand by Terzani craftsmen into clusters. Once lit, the multiple, angled surfaces of the discs emanate a soft, shimmering glow. Argent is available in stainless steel, gold plated, rose gold and champagne finish. Black nickel is available on request. Design Dodo Arslan.

# Mizu, flowing *light.*

Inspired by the tranquil and mesmerizing light refractions created by water, Mizu is a customizable pendant light from Terzani. Like water droplets, no two Mizu are alike, each crystal shape is unique and made meticulously by hand. Using only the clearest crystal, Mizu perfectly emulates water's refraction of light, casting amazing patterns around the room, reminiscent of flowing water. Available in clear, silver dust, gold, cognac and champagne finish. Design Nicolas Terzani.

# Manta, Shimmering *Waves.*

Manta is the latest design featuring the distinctive crystal first unveiled in Nicolas Terzani's best-selling Mizu. Collaborating with designer Dodo Arslan, the two imaginative minds created a light featuring sinuous, undulating lines. The results are soft waves of crystal light reminiscent of being underwater. The innovative Manta is made of crystal, with a dimmable integrated LED lamp focused on maximizing the crystal's reflection. Manta's organic form is available in two sizes and can be installed in numerous, customizable arrangements. Design Dodo Arslan & Nicolas Terzani.

# Gaia, earth *mother.*

In Greek mythology, Gaia is the personification of the Earth and the mother of all life. Looking to capture the mythical and natural beauty of this Earth goddess, designer Jean-François Crochet has created the Gaia pendant light. Consisting of geometric frames of brass or raw metal reminiscent of the mountains Gaia created, the pendant uses led light to push light through the “cracks” formed. The resulting light creates a magical feeling, as if the lights peaking through were alive themselves. Available to custom configurations, Gaia adds a vibrancy and sacred light to any space. Design Jean-François Crochet.

# Pug, multum *in parvo.*

Pug is a dog described as “much in little”, referring to the greatness of his personalities despite his diminutive size. Inspired by the Pug’s charm, designer Jean-François Crochet created the Pug pendant light whose protruding spherical lights are reminiscent of a pug’s face. As with the breed, the Pug pendant packs significant charm and beauty into a small package. Illuminated by LED light, these glass pendants are framed by two brass bands. With Pug, it’s easy to bring a new best friend (or pack of friends) into a home. Available in clear/raw brass and satin white/polished brass. Design Jean-François Crochet.

# Abacus, multiplying *luminescence.*

Used for centuries as the tool to both teach and communicate mathematics, the abacus was found in one form or another across the ancient world. At Terzani, we saw the beauty in the abacus' mathematical purity and clean, functional design. In the hands of Terzani's craftsmen, we've turned this inspiration into a new collection of modular pendant lamps whose flexibility allows for complex and beautiful configurations. Each module, or strand, of Abacus contains a custom set of round, hand-blown opal glass which emit a soft and uniform light. And, as the original abacus was used to calculate everything from simple addition to complex formulas, we've retained the same scalability. Due to its customization, our Abacus light is just as suitable in a home as a commercial space, and its almost infinite configurations makes sure you always come up with the right solution. Design Draw.

# Oscar, *a tribute.*

The great Brazilian architect Oscar Niemeyer once said about his work: "It's not the right angle that attracts me, nor the straight line. Stiff, inexorable, created by men. What really attracts me is the free, sensual curve. The curve I see on the sinuous course of our rivers, on the clouds in the sky, on your favorite woman's body. The universe is entirely made of curves". Inspired to pay tribute to one of the founders of modern architecture, designer Dodo Arslan has created a series of lights named "Oscar", which pay homage through their adoption of Niemeyer's signature sensuous curves. Oscar table lamp consists of a glass orb delicately held by curved brass. Available in nickel, brass, black, white, gold plated and rose gold finish. Design Dodo Arslan.

# Moiré, movement *with pattern.*

A French term derived from silk with a rippled or “watered” appearance, moiré is an optical effect that results in the illusion of waves or the movement of water. This effect is achieved by having an opaque, ruled pattern overlaid over another. Designer Christian Lava’s studies of this effect have led to his latest design aptly titled, Moiré. Using overlapping grids of metal, this LED pendant light dynamically changes shape following the viewer’s gaze, practically coming to life with a vibrating energy. Moiré is a mesmerizing addition to any room. Available in gold plated and nickel finish. Design Christian Lava.

# Doodle, Freehand *Design.*

We no longer march in a straight line. Our lives are dynamic, intertwining collections of relationships, experiences and journeys. Reflecting the fluidity of our generation, designer Simone Micheli has created a new, contemporary light for Terzani, Doodle. Like us, each Doodle is unique, each pendant is handcrafted by artisans to resemble a randomised path. And, to give us control over the journey we want to take, each LED bulb can be placed anywhere on the light, not only reflecting the choices we make in life, but giving Doodle a special flexibility. Design Simone Micheli.

# I Lucci Argentati, School of *Light.*

I Lucci Argentati draws from nature to create a whimsical, yet modern light. Recalling a school of fish darting through freshwater, it creates a mesmerizing luminescence. Sets of sleek lights combine to form a stunning pendant with thin incisions along the bottom creating an understated, tranquil beauty. Thanks to its modular system, I Lucci Argentati is customizable and can be combined in many different configurations: from small to extra large; as a pendant or sconce; and finished either in brushed nickel or white. Design Dodo Arslan.

I Lucci Argenti can be manufactured to work with integrated LED 3000K or 2700K. Different dimming options on request.

# Core, Eruption *of Light.*

Core is reminiscent of the natural energy at the heart of our world. Like bright lava seeping through the earth's crust, vibrant spheres of faceted crystal break through the iron surface of this pendant. Forcing light to pass through this metal structure results in a powerful, vibrant exchange of forces light and shadow erupt across the room, as the light pours through, as the light itself emits an organic radiance. Design Christian Lava.

# Iceberg, Pure *Light.*

Inspired by the natural beauty of ice crystals, this new suspension light creates a spectacular, luminous piece through the use of over 3600 plexyglass tubes. Similar to light refracting through water, the illumination created by Iceberg is both brilliant and natural, meticulously handcrafted, each light is a unique sculpture; sparkling, multifaceted and powerful. Design Dodo Arslan.

# Frame, Nature's *Imprint.*

Capturing a moment in time, Frame features a metal coral leaf, enclosed inside a borosilicate glass preserving a delicate imprint of nature. Hidden inside is a single bulb which glows from within. Creating a stirring light that projects a dynamic shadow due to the permeable coral. Frame is available in white, red, gold plated or silver plated. Design Terzani Lab.

# Calle, Perennial *Elegance.*

At Terzani, we spend countless days searching the globe for talented new designers, but sometimes they find us. Such is the case with the young designers Luca Martorano and Mattia Albicini who approached us with the design for Calle, a fantastic a new light we instantly fell in love with. It showcases our skill at crafting crystal to take the material to an exciting, modern place. Luca and Mattia worked with our craftsmen to create a slender inverted flute of crystal that, like the calla lily it mimics, can be grouped into stunning bouquets of light. Design Draw.

# Angel Falls, Cast down *Earth.*

For his first work for Terzani, Nigel Coates, well known for his unorthodox approach to design, has created an engaging, unique light. Customizable groups of crystal “angels” are illuminated by halogen lamps. What caused these angels to fall from the heavens? It’s up to the viewers to decide. Either way, angel falls is sure to garner attention, and generate conversation, in any setting. Design Nigel Coates.

Dimmable with all systems

# Anish, Playing *Spoons.*

A playful study of reflection, the idea for Anish was born when designer Dodo Arslan, while playing with his daughter, became fascinated by the almost infinite reflections spoons unleashed due to their concave and convex surfaces. Taking this idea to a larger scale, Dodo took inspiration from Italian flatware manufacturer and created a pendant composed of a range of spoons from the smallest teaspoon to serving spoons which magnifies the reflective quality of this shape. The result is an installation that creates a “galaxy” effect of seemingly endless light. Design Dodo Arslan.

# G.r.a, gyrating Romantic *rings of Light.*

This clean, precise form is the result of hours of labor by our artisans, who meticulously weld each ring together. G.r.a. is a delicate, refined pendant whose intricate shape belies its romantic glow. Available as an oval or a sphere, and finished in nickel or gold, G.r.a. serves as an elegant, unobtrusive complement to any room. Design Bruno Rainaldi.

# Orten'zia, Petals of *Light.*

Recalling the natural beauty of a flower, Orten'zia hand-soldered "petals" emanate a unique glow, immersing the entire room in a glimmering light. An organic radiance is created through light and shadow, planting a garden within the room. Available in either nickel or gold plated, the orten'zia's elegant form complements its dramatic light. Design Bruno Rainaldi.

# Tresor, a Wealth *of Light.*

An impeccable addition to any space, Tresor's hand-made design and precious metal "coins" create scintillating halos of light. Recalling discovered treasure, the layers of gold or silver leaf create a rich, luxurious light. Available in a range of sizes, including wall sconces and pendants, Tresor has an elegance that is truly priceless. Design Jean François Crochet.

# Glamour, Modern *Seduction.*

Glamour's randomly interspersed rings imbue this design with a seductiveness rarely applied to geometric shapes. Whether finished in gold, nickel or white, the diffused light emanating behind Glamour's rings bathes the surrounding area in a soft, sensuous glow. Available as a wall sconce, table lamp or pendant, glamour can provide subtle accents or act as the focal point of a room. Design Dodo Arslan.

# Magdalena, Cutting edge *Beauty.*

Reaching inside traditional forms, Magdalena's laser-cut, horizontal openings allow for its light to expand its range to the entire room. Creating an alluring pattern of light and shadow, Magdalena highlights the shape of the room itself. This unique exchange creates a pendant that impacts every space, regardless of size. Design Bruno Rainaldi.

# Bond, brands of *Racing Light.*

Bond's bands of light expose a deceptively luxurious interior. Under the glass exterior, lays a core of gold leaf that creates a deep, complex radiance. The overall glow is intensified by incisions that emit focused, dramatic lines of light. Extremely versatile, Bond is available in three sizes; as either a pendant or a table/floor light; and with a black or white exterior. Whether alone or grouped together, Bond's light creates a dynamic atmosphere. Design Bruno Rainaldi.

# Hugo, a Welcome *Guest.*

Some designs are strong enough to stand alone. These are the pieces that transform spaces and inspire viewers. Hugo, a unique sculpture created by Terzani's master craftsmen, is composed of hand-forged metal stems, encasing a single light. With a graceful, delicate form, Hugo is a welcome guest in any space, intriguing and powerful. Design Jean François Crochet.

# Be-spoke

Work with Terzani design team to bring to life your idea. From simple modification to more complex design changes.

Since the beginning, Terzani has always viewed esthetics as a way of interpreting natural and artistic beauty. Born in 1972 in Florence - Italy, the cradle of the Renaissance, the company was compelled to follow the creative invocations of the city. The word “esthetics” originates from the greek “aisthesis” which means “feeling” or, more precisely, knowledge created by the use of one’s senses. When you look at a Terzani design, you can sense how its light enchantingly envelops the surrounding space. It’s more than simply a practical, utilitarian design it’s an esthetic that represents a modern and artistic beauty through the use of design and innovative technologies.

# Intersection of art, luxury and design

Terzani creations are always inspired by the dialogue between the company and the designers themselves. The pieces are born from a compelling feeling Nicolas articulates to his designers. This inspiration can be a shape that exists in nature, as you can see with the fish that inspired “I Lucci Argentati”, or the stones/drops of water that inspired “Mizu”, or a material or working method that attracts his attention. With the team of designers that work with the company, a project will be executed with all the necessary technical diligence, but the starting point that defines any Terzani light is always a feeling.

To create a style like what we at Terzani have established, you need to balance several characteristics. Terzani is elegant and sophisticated, innovative yet original. It uses the latest technology, but also incorporates fine materials crafted in a very artisan way. Each lamp is an object/sculpture that is meant to be fully integrated into its surroundings, spreading a charming and enchanting play of light. This creates an ever-changing dialogue between the lamp and the space around it. The feeling that Terzani exudes is one of harmony and togetherness. Its products are grounded in the human process, transmitting the handmade artisan traditions of lovingly crafting objects piece by piece. This is the essence of Terzani, which sees beauty in the contemporary world, tradition and the search for new forms and languages. Terzani continues to redefine the way luxury lighting is designed and produced. Through experimentation with new production methods and forward-thinking ideas, it has become known for designs that use sculpture, light, shadow and motion to reshape spaces.

These handmade products sit at the intersection of art, luxury and design. Following Terzani’s artisan tradition, each “lighting sculpture” continues to incorporate traditional methods of processing glass and metal, along with giving individual attention to the every detail.

These designs are brought forth through the dialogue between Terzani and some of the world’s most renowned designers. Terzani is proud to work with such talented artists as Dodo Arlsan, Barlas Baylar, Jean Francois Crochet, Nicolas Terzani, Nigel Coates, Maurizio Galante, Christian Lava, Studio 14, Draw, Simone Micheli, Franziska Hinze, Stefano Papi & Saviz Yaghmai, and others, to create the company’s original style.

**TERZANI**  
LA LUCE PENSATA

All products in the Terzani collections are inspired by a return to nobel artisan traditions. Every object is carefully created using craft techniques and for this reason certain details may vary from product to product. These variations are not imperfections but characteristic peculiarities of the production process. Terzani reserves the right to modify its products in order to improve its features. Product reproduction on paper may result in a misrepresentation of some colors. For updated technical data please refer to our current price list or our website.
