

## Covid-19 Discussion

March 17 update - Friends, we have an additional update as we continue to review the recommendations from our health experts. We have made the decision to close our Kingsway Campus effective Wednesday, March 18 until Monday, April 6. Our staff will be available remotely to support the needs of our community so please reach out to us over email. Visit our [staff/elders page](#) for our email addresses.

In addition, we have established a way for you to let us know if you need help or perhaps you would like to help! Please use [this form](#) to let us know how best we can work together. Upon submission, our staff will review and be in touch! We have also set up a text option, simply text "HELP" to 317.565.4911.

March 16 update - As promised, we are sharing an update here regarding the impact of our current health situation surrounding COVID-19 on our Kingsway activities and campus. Since our last posting on Friday, we have received additional recommendations from the Centers for Disease Control and Prevention (CDC), our state and local health departments, and the Governor. Specifically, there are new definitions around [mass gatherings](#) and updated steps released by [Governor Holcomb](#). You can read each of these articles using those links.

As we think about what is best for our community while minimizing the spread of this virus, we have committed to an online-only experience for Sunday mornings through Sunday, April 5. As has been the case, the updates and precautions continue to evolve almost daily so we recognize the high potential of being online-only for a longer period. As we take it one week at a time, we encourage you to find ways to still connect with others in our Kingsway community and your own neighborhoods. Technology is an amazing gift that we can use to connect with people not just on social media or texting, but through video chats or meeting spaces, sharing short videos with encouraging messages, and so many other ways. Right Now Media is a tool with access to hundreds of Bible-based stories, bible studies, powerful speakers and more. It has something for all age groups. We have an account with them and can help you set up an account at no charge! Send Andy (Connections Pastor) a request at [alynch@kingswaychurch.org](mailto:alynch@kingswaychurch.org) with your primary email address. Simple as that!

Our Kids and Students teams are working hard to share updates, tips, and ideas, with you too on how to engage your child(ren) during this time. You can follow their social media channels on Facebook or Instagram: @kingswaystudents or @kingswaykids for those ideas starting this week.

Additionally, knowing several in our community have reached out asking for help or asking how to help others, we are finalizing a solid process as you read this. We expect it to be an option you can share with others in our community who may not be connected to Kingsway Christian Church. Kyle (Outreach Pastor) is also checking with our local outreach partners to understand how we can support them in this season. Stay tuned for updates on this!

If you have questions or concerns, please know you can always send an email to [info@kingswaychurch.org](mailto:info@kingswaychurch.org). Please join us as we continue to pray during this season. God is so much greater and is very much at work through all of the worry, concern, and fear.

God Bless,

Kingsway Christian Church

If you have questions about COVID-19, you can visit the [CDC website](#) or [in.gov](#) for the latest news and updates.
