## The Matco-Norca Promise

Matco-Norca has been providing quality products exclusively through the wholesale channel for over 60 years. Our faucet lineup features several complete and unique families that encompass multiple designs and price points.

Our Padova and Builder Light families offer matching accessories to complete the suite, while our pressure balanced rough-in valves (with and without stops) and roman tub rough-in valves are universal across every family, excluding Valve Engineered and Classic. Furthermore, five of our families feature ceramic valve technology and we are proud to say that our lavatory and tub & shower products are EPA WaterSense certified. Last but not least, our faucet program fully complies to the Safe Drinking Water Act (SDWA)/Federal Public Law No. 111-380.

We have also incorporated a "Build Your Own" tub and shower option that will allow you to create your own look based on what is important to you. In addition to this option, we will still offer all configurations that incorporate "Rough-In" components in finish packs and job packs. Matco-Norca features ADA compliant options in every family to meet your complete needs.

Matco-Norca's faucet program offers a limited lifetime warranty that fully encompasses both finish and function regardless of the application. Whether you are looking for entry level offerings to "value engineer" a project, or luxury products for your showroom, Matco-Norca has the warranty, breadth of products and finishes to ensure a lifetime of trouble-free satisfaction.

### Why buy from Matco-Norca?

Matco-Norca began in 1952 as a pioneer in sourcing valves. Since then, Matco-Norca has grown to be one of the largest independent suppliers of Valves, Fittings & Nipples and Faucets & Plumbing Specialties in the United States. Throughout the decades, Matco-Norca has become an established leader of offering quality products at competitive prices.

In addition, we also have highly trained direct sales personnel combined with outstanding rep agencies to ensure that your needs are met on time, every time. Simply stated, Matco-Norca's culture is rooted in providing consistent quality service to our customers across all facets of our business.

# Committed to Quality

**Matco-Norca** is committed to maintaining a high standard of quality for all the products we offer. Most products in this catalog are labeled with a designated approval or certification code. Below is a brief description of these approvals.

**ADA American Disabilities Act** — Protecting the rights of people with physical or mental disabilities.

**ANSI American National Standards Institute** — Organization that coordinates work among U.S. Standards writing groups; Works in conjunction with other groups such as ISO, ASME, ASTM, etc.

**ASME American Society of Mechanical Engineers** — Develops standards and testing criteria for finished products.

**ASSE American Society of Sanitary Engineering** — Develops standards and qualifies products for plumbing and sanitary installations.

**ASTM American Society for Testing Materials** — Develops standards for materials, products, systems and services.

**AWWA American Water Works Association** — Promotes public health through improvement of water quality. Develops standards for valves, fittings and equipment.

**CSA Canadian Standards Association** — Develops standards, tests and qualifies products used in gas lines and gas appliance installations.

**FM Factory Mutual** — Develops standards and qualifies products for use by the general public.

**ISO International Standards Association** — A worldwide process control organization. An internationally recognized certification for manufacturers that comply with high standards of quality control. Developed standards ISO-9000 through ISO-9004

**MSS Mechanics Standardization Society of the Valves & Fittings Industry, Inc.** — A committee of manufacturers that develops technical codes and standards for the valve & fitting industry.

**SDWA The Safe Drinking Water Act** — Is the main federal law that ensures the quality of Americans' drinking water. Under SDWA, EPA sets standards for drinking water quality and oversees the states, localities, and water suppliers who implement those standards. Weighted average lead content of water contact components must be 0.25% or less.

**NSF NSF International** — An organization committed to public health that writes standards and certifies products for food, water and consumer products.

**UL Underwriter's Laboratory** — Tests and qualifies valve and fittings products under UL standards for safety.

**UPC Uniform Plumbing Code** — Developed by the International Association of Plumbing and Mechanical Officials to govern the installation and inspection of plumbing systems as a means of promoting the public's health, safety and welfare.

**USC University of Southern California** — Foundation for Cross-Connection Control and Hydraulic Research that lists approved backflow prevention assemblies.

# Matco-Norca's Lead Free Initiative

Matco-Norca was ahead of California's lead free law (commonly known as AB 1953) back in 2009, a year before it became law, and was in full compliance with the introduction of the Safe Drinking Water Act / Federal Public Law No. 111-380 on January 1, 2014.

Drawing on AB 1953, the SDWA prohibits the use of brass products containing more than 0.25 weighted average lead content on wetted surfaces in applications involving dispensing water for human consumption.

Our lead free product offerings include Valves, Fittings, Nipples, Faucets & Plumbing Specialty items.

Matco-Norca's standard Lavatory faucets and Tub & Shower faucets are all EPA WaterSense certified.

Each Matco-Norca faucet family includes products in lead free versions. You will see this indicated on the following pages by the inclusion of our lead free leaf logo under the approvals column.

With Matco-Norca, you are good to go when it comes to lead free!
