## CONTENTS

**DOWNLOADING SKETCHPAD DOCUMENTS** iii

**PHILOSOPHY AND INSTRUCTIONAL OVERVIEW**

**BASIC TENETS OF THE INSTRUCTIONAL APPROACH**
- Mathematics as Reasoning 3
- Geometry as the Study of Structure 3
- Learning Mathematics in a Culture of Inquiry and Sense Making
  - Learning 3
  - Teaching 3
- Establishing a Culture of Inquiry 4
- Responsibilities in a Culture of Inquiry 4
- Understanding Students’ Geometric Thinking 5
- The Van Hiele Levels 5
- At What Levels Are Middle-Grade Students Functioning? 7

**THE SHAPE MAKERS COMPUTER MICROWORLD** 8
- Dynamic Mental Models 8
- The Shape Makers Computer Microworld 9
- The Shape Makers CD 10
- Accessing Shape Maker Sketches 10

**INSTRUCTIONAL OVERVIEW**
- Goals 12
- Classroom Setup 12
- Computer Management 12
- The Importance of Student Predictions 13
- Cultivating Conjectures 13
- Justifying Ideas 14
- Assessment 14

**ORGANIZATION OF THE BOOK** 15
- General Organization 15
- Glossary of Geometric Concepts 15
- Overview of Explorations 15

**QUADRILATERAL EXPLORATIONS**

**QUADRILATERAL EXPLORATION 1** Shape Maker Pictures 19
- Session 1
  - Explaining the Operation of the Shape Makers 20
  - Activity: Make Your Own Picture 21
- Sessions 2–4
  - Activity: Can You Make It? 23
  - Teaching Note: Shapes Versus Shape Makers 25
  - Teaching Note: Early Reasoning About Shape Makers 26
Teaching Note: Nurturing Progress by Encouraging Reflection 27
Mathematical Note: I Can’t Do It, or Is It Impossible? 29

QUADRILATERAL EXPLORATION 2  Shape Maker Games 30
Session 1 31
   Activity: Shape Maker Challenge Game 31
Session 2 34
   Activity: Identify the Hiding Shape Makers 1 34
Teaching Note: Perturbation and Progress 35
Teaching Note: Establishing Classroom Consensus on Language 36
Teaching Note: Control Points, Shapes, and Properties 37

QUADRILATERAL EXPLORATION 3  Predict and Check 39
Sessions 1–3 40
   Introducing Shape Maker Measurements 40
   Activity: Predict and Check 41
   Activity: Identify the Hiding Shape Makers 2 42
Mathematical Note: Measuring Sides and Angles 43
Mathematical Note: The Meaning of Degree 45
Teaching Note: The Rectangle Maker Can’t Make a Slant 45
Teaching Note: Cultivating Clarity 49

QUADRILATERAL EXPLORATION 4  Shape Maker Properties 51
Session 1 52
   Introducing Measured Shape Makers to Students 52
Sessions 2–4 56
   Activity: Which Shape Makers Can You Use? 56
   Activity: Conjectures and Queries 57
Session 5 58
   Activity: How Are They the Same? 58
Sessions 6 and 7 59
   Activity: Shape Maker Riddles 59
Session 8 60
   Activity: Angles in Intersecting and Parallel Lines 60
Teaching Note: What Does Parallel Mean? 62
Teaching Note: Mirror Images 65
Mathematical Note: Symmetry 67
Mathematical Note: Precision of Measurements 69
Teaching Note: Assessing Students’ Ideas About the Student Sheet “How Are They the Same?” 71

QUADRILATERAL EXPLORATION 5  Shape Maker Mysteries 73
Sessions 1–3 74
   Activity: The Mystery of Polygon Flats 74
Sessions 4 and 5 76
   Activity: Make Your Own Mystery of Polygon Flats 76
Teaching Note: Right Answers, Incomplete Reasons 78
QUADRILATERAL EXPLORATION 6  Relationships Between Shape Makers 80
   Sessions 1 and 2 81
      Activity: Relating Shape Makers 81
   Sessions 3 and 4 82
      Activity: Mathematical Debates 82
   Sessions 5 and 6 83
      Activity: Making a Quadrilateral Classification Chart 83
      Activity: Quadrilaterals Assessment 85
   Teaching Note: Shape Makers as Representations of Classes of Shapes 85
   Teaching Note: Some Example Debates 86
   Mathematical Note: The Mathematician’s View 91

TRIANGLE EXPLORATIONS

TRIANGLE EXPLORATION 1  Making Pictures 95
   Sessions 1 and 2 96
      Activity: Can You Make the Picture? 96

TRIANGLE EXPLORATION 2  Measured Triangle Makers 98
   Sessions 1 and 2 99
      Activity: Investigating Measured Triangle Makers 99
   Session 3 100
      Activity: The Sum of the Angles in a Triangle 100
   Session 4 102
      Activity: How Are the Triangles the Same? 102
   Teaching Note: Investigating Measured Triangle Makers 103
   Teaching Note: Discussing Measured Triangle Makers 106

TRIANGLE EXPLORATION 3  Other Kinds of Triangles 111
   Session 1 112
      Activity: Other Kinds of Triangles 112
   Teaching Note: It Takes More Than a Pretty Smile to Be (an) Acute Triangle 113

TRIANGLE EXPLORATION 4  Making Shapes from Triangle Pairs 115
   Session 1 116
      Introduction to Making Shapes from Triangle Pairs 116
      Activity: Making Shapes from Triangle Pairs 120
   Sessions 2–4 121
      Activity: Making Special Quadrilaterals from Triangle Pairs 121
   Session 5 123
      Activity: What Kind of Triangle? What Kind of Quadrilateral? (Assessment) 123
   Teaching Note: Making a Rectangle from Two Right Triangles 125
   Teaching Note: Proving It’s a Square; Proving It’s a Parallelogram 128
### TRIANGLE EXPLORATION 5  
**Tessellations**  
Sesssions 1 and 2  
Activity: Triangle Tessellations  
Teaching Note: Describing Our Tessellations  

### EXTENSIONS  
- Polygon Flats with Verbal Descriptions  
- Mystery Shape Makers Again  
- Minimal Definitions for Shapes  
- Exploring Diagonals of Quadrilaterals  
- Exploring Similarity  
- Inscribing Quadrilaterals and Triangles in Circles  
- Students Construct Their Own Shape Makers  

### GEOMETRIC GLOSSARY  

### STUDENT SHEETS
