This is how yesterday's press release http://presswire.com/pr/hudes/hudes_250714.html

cleared in the same way by the US Japan Joint Committee, after a 24 hour embargo, is featured on the internet. By my authority as legal counsel to Wolfgang Struck, authorized signatory of the Global Debt Facility, and Acting General Counsel of the International Bank for Reconstruction and Development, I am going to circulate this email to the rest of the embassies in Tokyo tomorrow: I will inform them that the United States counties are in accord with the signature of the Monetary Agreement. If this is incorrect, please let me know. You have my email address.

I keep having to reset this link about the insolvency of the central banks, and the position of the US military. The military is not going to sit by passively and watch while the Federal Reserve Note crashes. (The US military has been sending me books and phoning me and this is because they did not like the three missing nuclear bombs, or that the Inspector General of the Department of Defense, Jon Rymer, failed to enforce proper personnel policies after one of these bombs was detonated 600 miles off the coast of Charleston on October 7, 2013. for that, see <https://s3.amazonaws.com/khudes/fdod46.pdf>):

Hold on, this is waiting to be approved by GoldSeek.com.

This is all very well and good, but it is ignoring the deal on the table that supersedes all of this bad news: that the world's gold in the Global Debt Facility comes out of hiding, and is taken up by each nation to replace its failing paper fiat currency.

http://presswire.com/pr/hudes/hudes_250714.html

Not only that, but the Fed and the other private central banks, which have thought they were above the law, are whittled down to size under the bankruptcy laws of each nation where one of their now insolvent tentacles is located.

Why are you ignoring this bona fide offer from the Global Debt Facility?

Dear Sirs,

The United States citizenry is shaking loose from the Banking Cartel, with 95% likelihood, as predicted by this accurate power transition model, developed in the US defense department: <http://philosophyofmetrics.com/2014/02/18/sdrs-and-the-new-bretton-woods-part-six/comment-page-1/#comment-584>

I am known as the World Bank Whistleblower -- I am also working together with the authorized signatory on the Global Debt Facility, as described below:

Also attached below is my email to the Defense Department, which includes the office that operates the power transition model. I am currently in Tokyo, and am waiting to hear back from Russia and the rest of the BRICS nations on the proposal which I sent to provide the gold in the Global Debt Facility for the minting of all of the nations' currencies.

Dear Don,

You are mistaken. The trust accounts are not with Indonesia. This document shows that: <https://s3.amazonaws.com/khudes/soekarno2.pdf> This describes the Global Debt Facility: <https://s3.amazonaws.com/khudes/BILATERAL.pdf>

As for the BRICS, I think that they will allow the US to be included, so long as we are only one of the countries, and are not trying to dominate anybody else. It is a matter of trust. We are being vetted. Hopefully we will be up to the test. Unless we are allowed to join, the sore losers among us will create enough of a stink to ruin it for everyone else. Hopefully, the BRICS realize that as well.

There is a coalition for the rule of law, which this power transition model <http://philosophyofmetrics.com/2014/02/18/sdrs-and-the-new-bretton-woods-part-six/comment-page-1/#comment-584> has predicted would come into being with 90-95% likelihood since I stated in the UK Parliament House of Commons Public Administration Select Committee's report on "Complaints: Do They Make a Difference?" on page 186 "Today's dire circumstances call for immediate and forceful intervention in the hope that time still remains." and Elaine Colville reported on page 178 "It devolves on Parliament to sort out this egregious state of affairs."

I agree with you that the hundred monkeys are now in place. You are inspiring me to start writing the story as I have experienced it. It has been quite a story.

Best,
Karen

Dear Karen, I can see why multiple countries around the world don't trust or respect the United States. The US has practiced Nation Building, The Federal Reserve has financed both sides of wars in it's history in the name of profit. It has enslaved the the banking system and therefor the people of many nations.

I have seen videos showing the king of Indonesia with Gold and Platinum Bars sitting out on a

table filming him talking about the Human Obligation and Trust Accounts 1-11 for which if I am not mistaken he is in control of.

In your video you say that "all the Gold" you're speaking of comes from a Global Debt Facility. Can you give more clarity to what the Global Debt Facility is that your speaking of?

The BRICS nations will soon have their own Banking System, non-inclusive to the IMF or World Bank. They will cut out the Federal Reserve and the FRNS that have been printed as well. I do not personally see the Cabals as holding the seams together for long either. In fact I see a "hundred monkey effect" occurring where the people of all nations are waking up to seeing the "corporate Governments" and the slavery that has been perpetrated upon the world.

I would like to hear from you regarding the above mentioned topics.

Sincerely
Don Hunt

The National Association of Counties and the President of the County Executives of America will hear from United States citizens what they think of the mismanagement and corruption in the international financial system, and the proposed unilateral surrender of military might of the United States that the imminent collapse of the Federal Reserve Note will entail. This should facilitate United States' agreement to accept Wolfgang Struck's release of the uncut dollars in UBS on an interim basis, to replace the Federal Reserve Notes until the gold allocated to the US from the Global Debt Facility can be minted. Meanwhile Wolfgang Struck is also allocating gold to United States' allies for the minting of their respective currencies from the gold allocated to them from the Global Debt Facility.

To H.E. Mr. Timothy Mark Hitchens and H.E. Caroline Kennedy,

Your Excellencies,

The Japanese counterparts whom I have conferred with include the former Vice Minister of Finance and member of Japan's House of Councillors, the Japan association to correct the unfair tax system, the Japan Credit Rating Agency, the Nichibenren, and the Japanese Institute of Certified Public Accountants. I have also contacted the secretariat of the Joint Japan US Committee under the Status of Forces Agreement.

Following inquiries into the decision of the authorized signatory on the Global Debt Facility to provide gold to mint currencies with which to replace respective fractional reserve fiat currencies, we are scheduling the signature of the Monetary Agreements as soon as the typhoon has passed.

As you know, the power transition model has facilitated this process of reaching agreement on an unprecedented return to the rule of law in the international monetary system. By copy of this email, I am requesting the Executive Directors to let me have the names and various capacities of the officials who will be executing the Monetary Agreements on behalf of their respective countries. Counterpart signature of the Monetary Agreements can also be accommodated.
