I would appreciate if Washington Foreign Law Society would kindly address the question whether the legal profession has been covering up the fact that the United States is currently under martial law, whether title to property vests in the people who have paid off mortgages on their land, homes, cars, and other property, or whether the states are providing mere warranties of title, whether Federal judges are presiding over the courts under Article III of the US Constitution or are administering admiralty law courts, and whether Congress has been extending a state of emergency since 1861. As you can see, this is now in the public eye.

Dear Karen:

Is there an official site where your Global Corporate Control videos can be viewed? I have watched your videos in YouTube only but find it difficult to find your videos in chronological order. I have only seen three of your videos but would like to watch them in the correct sequence. Thank you in advance.

This is the link to my YouTube channel, which is in inverse chronological order:

<https://www.youtube.com/user/KarenHudes>

YouTube censored these videos on military, gold, and secret societies, which can be viewed on Archive.org at:

This link is to other videos, which is also in rough chronological order:
