I discussed the 90-95% accuracy of the Department of Defense's model with Chuck Hagel in 2008, and with Major John Spencer following his editorial in the New York Times on November 6, 2015. The Network of Global Corporate Control removed this tweet from the internet, but I uploaded it again

The US is not unilaterally surrendering its military might. The loyal Marines are going to investigate the illegal theft of gold from the cordoned area guarded by the US military and any illegal transports will be restored to the Global Debt Facility. The Secretary of the Army is going to replace unconstitutional Federal Reserve Notes with aurum <http://www.peakprosperity.com/podcast/84359/new-way-hold-gold> , as agreed by the Joint US Japan Committee under the Status of Forces Agreement.

And Chuck Hagel's unfinished business -- court martialing the traitors in the US military -- is going to happen.

Dear Major Spencer,

This is in response to your op ed in the New York Times bemoaning soldiers' access to social media. The real problem you are facing is that social media has ended the censorship by the now bankrupt Network of Global Corporate Control identified by Vitali, Glattfelder, and Battiston of ETH Zurich [http://arxiv.org/PS\\_cache/arxiv/pdf/1107/1107.5728v2.pdf](http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf) Most Americans, and that includes soldiers, know that the New York Times is simply bankers' propaganda and nothing more.

The US' international monetary gold reserves, set aside in the Global Debt Facility at the end of WWII, are preventing the US military from having to surrender unilaterally, despite Martin Dempsey's treason. The Global Debt Facility, administered by the 188 Ministers of Finance on the Board of Governors of the World Bank and IMF, is now foreclosing under the commercial lien which it has placed on Martin Dempsey's assets. Thankfully, social media is helping the US military to remain loyal to the rest of the country during this interregnum, predicted by a model developed by Ronald Tammen, Chair of the Department of National Strategy at the National War College. Power Transitions: Strategies for the 21st Century. See also: <https://s3.amazonaws.com/khudes/sentia+model.pdf>

Even while the New York Times remains mute, social media continues to inform the public how the US is implementing what John F. Kennedy and Ronald Reagan set out to do before they were shot. <http://presswire.com/content/1324064/board-governors-world-bank-and-imf-announce-transition-asset-backed-currencies>
