You have issued invitations to the Board of Governors of the World Bank and IMF. You have claimed to have something to do with the Global Debt Facility. You are now claiming that there are assets outside the Global Debt Facility or Global Collateral Accounts administered by the World Bank and International Monetary Fund Board of Governors, which is incorrect.

Please stop bothering me.

I have responded to your previous emails separately. Until the Government of the Philippines answers my letters <https://twitter.com/KarenHudes/status/671394675434119168/photo/1> and grants me access to the Secretariat of the Development Committee inside the World Bank headquarters, it would be premature and unproductive to communicate further. As you know, the Board of Governors must authenticate the signature authority on the Global Debt Facility. It is their intention to authenticate each and every transaction in the Global Currency Reset that has been approved
