Dear Ted Thomas,

188 Ministers of Finance have authorized me to exercise the legal authority of the Bretton Woods institutions. Pursuant to Article V of the US Constitution, the US people are entitled to consent to their government. Now that the US Congress has illegally refused to call a Constitutional Convention, it is right and proper that the County Executives of America may accept the offer of gold from the Global Debt Facility on behalf of the people of the United States. Through the US Japan Joint Committee under the Status of Forces Agreement, it is not necessary for the US military to mutiny against their Knights of Malta traitors.

<https://s3.amazonaws.com/khudes/County+Executives+of+America.pdf>

The financial markets are not going to crash. What is going to happen is that we are going to use the wealth of the world, safeguarded in the Global Debt Facility, to issue sound money in Japan, the United States, and in the rest of the world. [https://s3.amazonaws.com/khudes/Karen-Hudes+\(2\).jpg](https://s3.amazonaws.com/khudes/Karen-Hudes+(2).jpg)

The crooks that think they are allowed to hijack the Bretton Woods institutions are refusing to disburse the money to fire the security firm, Allied Barton. Allied Barton (owned by the network of global corporate control identified by Stefania Vitali, James B. Glattfelder, and Stefano Battiston: [http://arxiv.org/PS\\_cache/arxiv/pdf/1107/1107.5728v2.pdf](http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf) ) is not above the law. <https://s3.amazonaws.com/khudes/Twitter9.10.14.1.pdf>

I am copying the Ethics and Compliance Officers Association and the legal and accounting professions. We are bringing the International Bank for Reconstruction and Development and the International Finance Corporation into compliance on the capital markets.

Best,  
Karen Hudes  
Acting General Counsel  
International Bank for Reconstruction and Development  
Legal Counsel to Wolfgang Struck  
Authorized Signatory of the Global Debt Facility

Dear Eddie,

I just read your blog on the attempted false flag in Charleston, S.C.

<http://worldtruth.tv/obama-ousts-top-officers-after-nuke-explodes-in-ocean-instead-of-charleston/>

Perhaps you'd like to include my disclosures in your blog? I have just put the County Executives of America on notice that we are doing things differently from here on out. I am here in Tokyo, and the US Defense Attaché sent me the emails at the foot of this email. This is what a retired member of the armed forces sent me some time ago:

Subject: RE: Reading the Tea Leaves

Date: Sat, 19 Jul 2014 21:05:07 -0400

Thanks for forwarding this. When the Banking Cartel owns the press, we must read the tea-leaves by seeing what the Banking Cartel wants people to focus on. The Banking Cartel wants to counter the real story that they are suppressing. Greg Hunter is one of the few mainstream journalists who reported the cover-up of corruption in the international financial system.

<http://www.youtube.com/watch?v=gHVgRgYdCsQ&feature=youtu.be>  
<http://youtu.be/av6bpIzvDvg>      <http://youtu.be/H5h1i-7qt88>

The world is tired of the Banking Cartel. So is the US military, which resented, to put it mildly, an attempted nuke on Charleston on October 7, 2013. So are the County Executives of America, who heard loud and clear from their citizens before their annual meeting on July 11-14, 2014, <https://s3.amazonaws.com/khudes/Twitter6.20.14.pdf> So are the state legislatures in the US. <https://s3.amazonaws.com/khudes/fstatelegislatures.pdf>

Hunter is running this story about China counterfeiting gold.

[https://www.youtube.com/watch?v=ZM\\_hYgvhHRQ](https://www.youtube.com/watch?v=ZM_hYgvhHRQ)

It is the Cabal who opposes the rule of law. The United States is not surrendering unilaterally to the Banking Cartel. The Dollar is fine and the US Treasury is going to issue aurum <http://www.peakprosperity.com/podcast/84359/new-way-hold-gold>

The real story is about the coalition for the rule of law accessing the Global Debt Facility to take the world's gold out of hiding for the benefit of the world's people.

The BRICS, the County Executives of America, and the rest of the world agree that we are running things now. The parade of horrors that the Banking Cartel wants us to think is our reality is just their outmoded projection screen and nothing more. <https://s3.amazonaws.com/khudes/fdod46.pdf>

What would we rather have, rule of law and the bankruptcy of the Banking Cartel or a currency war, followed by World War III? According to the Power Transition Model, which is 90-95% accurate,

<http://philosophyofmetrics.com/2014/02/18/sdrs-and-the-new-bretton-woods-part-six/comment-page-1/#comment-584>

the coalition for the rule of law overpowers the Banking Cartel. <https://s3.amazonaws.com/khudes/twitter7.16.14.pdf>

## Is the world's third richest man betting \$55 billion on an imminent market collapse?

Dear Concerned American,

What I'm about to show you is frightening.

But, as a loyal *Money Morning* reader, it's critical you see [this](#).

Below is a short video that was given to me by the CIA's Financial Threat and Asymmetric Warfare Advisor.

What it reveals is evidence that our stock market has hit a dangerous stress point that is over 2X more unstable than it was just prior to the Great Depression.

This top U.S. Intelligence Community economist fears a sudden, 70% stock market crash is imminent.

And two of the world's richest investors seem to have already begun to prepare.

[Click here if you can't see this video.](#)

Here's why you should take the footage above very seriously.

Warren Buffett is now keeping \$55 billion worth of Berkshire Hathaway's capital out of the markets. This is costing him an estimated \$29 million a day.

But Buffett isn't the only one.

Fellow billionaire George Soros has recently shifted 16% of his entire net worth into a short position on the S&P 500. This is a direct bet on a market collapse.

Ms. Hudes

I'm too angry right now to write coherently. I just wrote an e-mail to Phil Angelides and thanked him for his efforts as chair of the FCIC, even though their persistence did not pay off.

I'm listening to this young lady interviewing you, [<https://s3.amazonaws.com/khudes/rttv.pdf> <http://www.youtube.com/watch?v=4hgA9j-4dB0re> ] and she keeps asking what's wrong with Obamacare. The thing that's wrong with Obamacare, and our government in general is that they are systemically dependent on spending money which was never earned by anyone. Once a government and an economy becomes dependent on printing money, we no longer have a democracy, and we have an economy which is heading for collapse.

Like I said, I'm so enraged right now, I can't think straight. You're telling it exactly like it is (I'm listening to you right now). But it doesn't matter. The people in control of the government, the financial services industry, the healthcare industry, are looting the US Dollar and getting as much as they can before it collapses.

I just wanted you to know there are people out here who at least recognize what's going on, and recognize how pervasive the corruption is. I'm a Republican who voted for Obama in 2008. I bought his whole fraudulent campaign.

I can tell you this: when the United States goes down, the 70 years of global comity amongst nations (let's call it the Pax Americana) is going to come to an end, and I suspect we will see decades of misery and mayhem throughout the world. And the people most to blame for this are, I'm sorry to say, the voters of the United States, who are either too apathetic, too ignorant, or have a stake in the unfunded entitlements being paid for with fiat currency.

Sorry, I usually write a little more clearly with a beginning, middle and an end. I just wanted to express my appreciation for the fact that you're standing up and speaking out publicly against these criminals.

Ted Thomas

I pass this quote around frequently:

I cannot accept your canon that we are to judge Pope and King unlike other men, with a favourable presumption that they did no wrong. If there is any presumption it is the other way, against the holders of power, increasing as the power increases. Historic responsibility has to make up for the want of legal responsibility. Power tends to corrupt, and absolute power corrupts absolutely. Great men are almost always bad men, even when they exercise influence and not authority, still more when you superadd the tendency or the certainty of corruption by authority. There is no worse heresy than that the office sanctifies the holder of it.  
(Sir John Dalberg-Acton, British Theologian, 1887)
