

**INTRO** Good evening, I am your host Karen Hudes in this series on the Network of Global Corporate Control. . Thanks to DCTV and Carmen Stanley, Studio Producer and Director, Maurice Jackson on Audio and Prompter, and Delores Harris, floor director.

Today's show is being broadcast live and is called "Coming About". So let me show you how as skipper I pushed the tiller to come about for the Global Currency Reset in a show that was taped on June 30, 2015, and aired two weeks later

<https://www.youtube.com/watch?v=E4cvC3PU2JU> from 00:17 to 5:24

Ever since the show, I have been waiting for the wind to pick up. What is the wind? The people demanding an end to the corruption in paper currencies in a Global Currency Reset. We are on a one way street to the Global Currency Reset. Once you have seen a difference between reality and propaganda, there is no way to undo that realization.

As the skipper of the boat, I want to show you what is happening in the world now that we are coming about. This series about the Banking Cartel has been on the air for one and a half years. I called the series the "Network of Global Corporate Control" because that is the name that three mathematicians at the Federal Institute of Technology in Zurich, Switzerland gave in 2011 to the group of central bankers and 43,000 other companies on the stock markets [http://arxiv.org/PS\\_cache/arxiv/pdf/1107/1107.5728v2.pdf](http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf)

Why do I say that I am the skipper? That is because I am the one who votes the 17% shares for the US on the Board of Governors of the World Bank and IMF until the US Constitution of 1789 goes back into effect.

The New York, Tokyo and Washington embassies have not contradicted the press releases and the other statements that I am publishing over the internet on their behalf.

You have seen how I cleared the March 3, 2015 press release on the Global Currency Reset that Presswire deleted this week.

General Dunford has broken many of the links on my social media. I just checked the comments on the links that I published on YouTube. One comment said,

This is not the first time she's giving links that cannot be found.

[Karen Hudes](#)

That is because they are being obscured. This is evidence that the Banking Cartel exists. Just say which links are broken and I will publish them. DUH!

General Dunford's treason is fully exposed. Yesterday I exposed Ashton Carter's corruption for good measure. This was after I uploaded a screenshot showing how the election of Donald Trump was invalid because the US Congress secretly suspended the Constitution of 1789. There has been some pushback, but many more people are now catching on:

**EricSteeleLive** @EricSteeleLive

[@KarenHudes](#) what difference does the Electoral College make if he's won the popular vote though he's won both is that not correct?

[.@EricSteeleLive](#) When primaries were a scam? All the difference because we are in interregnum instead of dictatorship and landing in WWIII.

Here is a comment that YouTube refused to post

[DragonflyArtz1](#)

So what about Obama and Bush and all of the other Presidents that have been elected and served full terms? It seems to me they don't care about any of this Interregnum and are just going along with "business as usual". What is it going to take to get things back on track?

Reply

[Karen](#): Good question. I have already made sure that things are going back on track by letting Germany and Japan's Defense Attachés know that their defense depends on Federal Reserve Notes getting replaced. And in turn, Japan and German people are holding hands with Americans so that we can all do this heavy lifting.

Today there has been a story in Zero Hedge that is giving the misimpression that Donald Trump will prevent WWIII. Yes, we know from the very accurate National War College that preventing WWIII requires that we clean up corruption in the financial system. This

depends on the Coalition for the Rule of Law, that is all of the people working together to access their monetary gold reserves in the Global Debt Facility and replace corrupt paper currencies and the corrupt politicians that are bribed to keep the Banking Cartel in place . This means that the US Constitution of 1789 has to go back into effect, and the Federal Reserve Notes have to be replaced.

In the meantime, journalists who give the misimpression that Donald Trump will keep us out of WWIII, or prevent the Banking Cartel from stealing our pensions, are being placed in the spotlight, as happened to yesterday.

Putin And Trump Hold Phone Conversation, Agree To Normalize Relations

**I am the canary in the coal mine. For our foreign viewers, who do not know what this statement means**

When exposed to toxic gases, canaries suffer ill effects and die sooner than humans do. That's why coalminers used to bring caged canaries into the mines with them. If the canaries became sick or died, this was a sign that something was seriously amiss and that the miners needed to get out. The practice was phased out, but the phrase **canary in the coal mine** lives as a metaphor for any warning of serious danger to come.

#### **Canary Bird with Coal Miner**

The story about Trump and Putin is simply theatrics.

@KarenHudes

How do I know this? First of all, because Donald Trump is not disclosing that the Banking Cartel replaced the US Constitution of 1789 when Revolutionary War debts fell due, or that the US Congress has been allowing the Banking Cartel to steal the titles to property by using war powers against the people. Vladimir Putin is betraying the people of Russia, by not accepting the monetary gold reserves of Russia that are on offer. I have commented that the reality is that Japan and Germany are part of the Coalition for the Rule of Law that is predicted by the power transition model from the US war college. The people who have been following this story on the internet are also part of the coalition for the rule of law. The Network of Global Corporate Control is exposed.

Yesterday I uploaded on YouTube a screenshot showing how I contacted Japan's and Germany's Military Attachés. The US is going to replace unconstitutional Federal Reserve Notes for the US monetary gold reserves in the Global Debt Facility, with 90-95% likelihood, as shown by the accurate power transition model that came to the World Bank from the National War College of the US Department of Defense. What I told Ashton Carter is that the United States is honoring its treaty obligations to Germany and Japan. The Joint Chiefs of Staff and Ashton Carter are silent in the face of these serious charges that they are corrupt. This is because they have been caught red-handed.

The UN troops are not welcome in the US; there has been no consent for their deployment in the US because the Network of Global Corporate Control has no authority. How could a corporation be the United States? The United States is in interregnum.

I accused General Joseph Dunford, Jr., Chair of the Joint Chiefs of Staff, of treason after he was caught red-handed trying to steal the world's assets in the Global Debt Facility and he claimed that he was entitled to be a military dictator and govern the United States. Instead, this past week I showed how the Chinese asked me to steal the world's wealth for them and how a CIA crook threatened to sue me if I didn't allow him to go before the Euroclear bank screens. I have been trying to respond to constructive criticism, from people giving me pointers to improve my broadcasts. One critic asked me to be sure to tell people what they should do to help out: What do people need to do? Stay tuned into the global currency reset, where we are replacing paper currency for currency out of gold and local currency, by:

- forming small groups,
- paying attention to what is really going on by tuning out of the mainstream media, and developing your own channels of communication
- learning to think critically and helping others to think straight
- making sure your local areas (villages and towns) have local currencies, and
- holding your local officials accountable.

OUTTRO Thank you for listening to another segment of "The Network of Global Corporate Control." Today's segment is about coming about. I am your skipper, accountable to you, and we are all responsible for doing our part in the Global Currency Reset so that we stay out of WWII. Until next week, I am your host, Karen Hudes.

IF THERE IS TIME: The reason many of my posts are so long-winded is because decisions are being taken in a decentralized way, and I am showing you where the dialogue is. The fact is that nearly all wealth is owned in the Global Debt Facility, and all of humanity has to clean up the corruption and establish decentralized institutions that are accountable. We will take things slowly until the corruption is cleaned up. We will communicate among each other until we are satisfied that things are proceeding in a decentralized fashion. We are all accountable.

US college campuses are threatened with the loss of millions of dollars in climate funding should they allow their students and faculty attend seminars on the theory of climate cycles by true climate professionals. Why are NOAA and the United Nations so fearful about the topic "Climate Cycles"?

By Prof. James F. Tracy: Consider the coverups of election fraud in 2000 and 2004, the events of September 11, 2001, the invasions Afghanistan and Iraq, the destabilization of Syria, and the creation of "ISIS." These are among the most significant events in recent world history, and yet they are also those much of the American public is wholly ignorant of. In an era where information and communication technologies are ubiquitous, prompting many to harbor the illusion of being well-informed, one must ask why this condition persists.

By [Prof. James F. Tracy](#)

*Since the end of World War Two the Central Intelligence Agency has been a major force in US and foreign news media, exerting considerable influence over what the public sees, hears and reads on a regular basis. CIA publicists and journalists alike will assert they have few, if any, relationships, yet the seldom acknowledged history of their intimate collaboration indicates a far different story—indeed, one that media historians are reluctant to examine. When seriously practiced, the journalistic profession involves gathering information concerning individuals, locales, events, and issues. In theory such information informs people about their world, thereby strengthening “democracy.” This is*

exactly the reason why news organizations and individual journalists are tapped as assets by intelligence agencies and, as the experiences of German journalist Udo Ulfkotte (entry 47 below) suggest, this practice is at least as widespread today as it was at the height of the Cold War.

Consider the coverups of **election fraud in 2000 and 2004, the events of September 11, 2001, the invasions Afghanistan and Iraq, the destabilization of Syria, and the creation of “ISIS.”** These are among the most significant events in recent world history, and yet they are also those much of the American public is wholly ignorant of. In an era where information and communication technologies are ubiquitous, prompting many to harbor the illusion of being well-informed, one must ask why this condition persists.

Further, why do prominent US journalists routinely fail to question other deep events that shape America’s tragic history over the past half century, such as the political assassinations of the 1960s, or the central role played by the CIA major role in international drug trafficking?

Popular and academic commentators have suggested various reasons for the almost universal failure of mainstream journalism in these areas, including newsroom sociology, advertising pressure, monopoly ownership, news organizations’ heavy reliance on “official” sources, and journalists’ simple quest for career advancement. There is also, no doubt, the influence of professional public relations maneuvers. Yet such a broad conspiracy of silence suggests another province of deception examined far too infrequently—specifically the CIA and similar intelligence agencies’ continued involvement in the news media to mold thought and opinion in ways scarcely imagined by the lay public.
