

INTRO

Good evening, I am your host Karen Hudes. Welcome to this Series on the Network of Global Corporate Control. The Network of Global Corporate Control is also known as the Banking Cartel. Today's segment is live. The last live segment told you the story of the Global Currency Reset. Today's segment answers Jolanda's question: "Who is in control?" Thanks to DCTV, to Carmen Stanley, Studio Producer and Director, Krushae Starnes, Audio and Teleprompter, and Aliya Ja'Mari, Floor Director. Krushae is helping us today again as a volunteer.

We are streaming one hour later than our customary timeslot. This to make it easier for future volunteers.

Let's start out with what you see around you: John F. Kennedy said to the Press Corps in 1961:

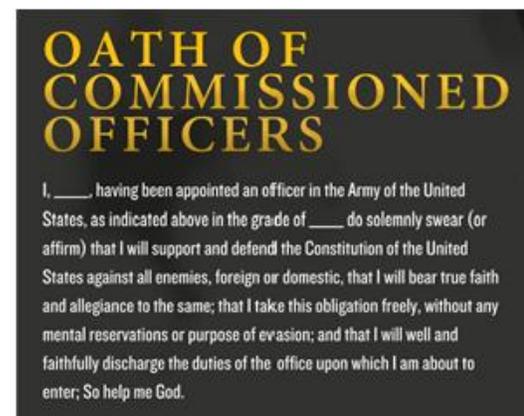

“For we are opposed around the world by a monolithic and ruthless conspiracy that relies on covert means for expanding its sphere of influence—on infiltration instead of invasion, on subversion instead of elections, on intimidation instead of free choice, on guerrillas by night instead of armies by day. It is a system which has conscripted vast human and material resources into the building of a tightly knit, highly efficient machine that combines military, diplomatic, intelligence, economic, scientific and political operations. Its preparations are concealed, not published. Its mistakes are buried not headlined. Its dissenters are silenced, not praised. No expenditure is questioned, no rumor is printed, no secret is revealed.”

In this Series I have been describing a fierce battle with the Banking Cartel. What is my role in this battle? I am speaking for the opposition to the Banking Cartel.

Who am I? I am a lawyer and economist who spent 21 years in the World Bank's Legal Department, and kept on reporting corruption every chance I got--to this very day. I am also the person appointed by the Board of Governors of the World Bank and International Monetary Fund to act as Overseer Mandate Trustee for the Trust containing the world's monetary gold reserves and other wealth that was deposited at the end of WWII with the World Bank and International Monetary Fund. I write on World Bank letterhead, and nobody stops me, or contradicts me.

Last week I told Donald Trump that he was not the Commander-in-Chief of the United States' military forces. In the May Atlantic an Article billed on the cover as The Military's Plunging Morale says in a side-bar to the Article that morale of American service members is perilously low. The article gives other reasons but leaves out the main reason: because the military cannot fulfill their oath to defend the Constitution. The US Constitution of 1789 is not in effect.

Yesterday I replied to a tweet from the White House about the US embassy move to Jerusalem:

Replying to @WhiteHouse

.@WhiteHouse Your effort to start a conflagration in the Middle East has been "trumped" by progress in the Global Currency Reset <https://s3.amazonaws.com/khudes/Twitter12.6.17.pdf> We know your Presidency is illegitimate.

How do we know Trump's Presidency is illegitimate? It is because the US Constitution of 1789 is not in effect. The corruption that JF Kennedy was referring to in his 1961 speech to the Press Corps is long-standing. There has been secret martial law in the United States ever since 1861. Then in 1871 as a result of the Revolutionary War debts falling due to the Banking Cartel, a second secret Constitution was put into place. Following that, in 1933 the US federal government went into bankruptcy. If all this corruption wasn't enough, the US Congress has been suspending the Constitution under a state of emergency.

My efforts are striking home, although the Banking Cartel is trying to keep people from finding this out. A couple of days ago, one of the people who commented on my YouTube channel made the mistake of posting the World Bank's financial statements and the people who signed them. One of the signers was Pope Benedict XVI. I called him out.

There was a sharp reaction, as the Banking Cartel responded with Interpol, Queen Elizabeth, and the United Nations, as well as Ferdinand Marcos' son, Tiburcio Villabor Marcos Tallano Tagean IV. This only escalated matters, and I countered by pointing out that the Banking Cartel was not able to keep me from exposing them or the corruption.

We are looking at a chain of dominoes falling. The Coalition that is backing the exchange of Federal Reserve Notes for the US' monetary gold reserves in the Global Debt Facility is gaining control. In summary, the dominoes that are falling are hastening the Global Currency Reset. The dominoes are the corrupt money system of the Banking Cartel.

I also want to show you another occasion two years ago where the Vatican got involved. That was when the Acting President of the World Bank tried to invalidate the Global Debt Facility, and fire me. Badré, then Acting President of the World Bank, was fired instead. The Vatican also tried to steal the assets in the Global Debt Facility by signing a "Galactic Agreement." I invalidated this attempt.

Subject: Governance Issues at the World Bank and IMF

Dear Mr. Hagan,

I have been in contact with you over the years concerning the governance issues at the Bretton Woods institutions. In 2012 the Board of Governors reinstated me as Acting General Counsel of the World Bank, and following the Annual Meetings in Peru, appointed me as Oversight Mandate Trustee of the Global Debt Facility containing the world's international monetary gold reserves. More recently, I have filed interim financial statements of the Global Debt Facility with the Securities and Exchange Commission. <https://s3.amazonaws.com/khudes/Twitter1.26.16.2.pdf>

In this connection, please verify whether there is any truth to the attached story that you accompanied Christine Lagarde to the Vatican for signature of an agreement that was not authorized by either the Board of Governors or the Board of Executive Directors of the IMF. If this is the case, both you and Ms. Lagarde exceeded the authority of the Managing Director in the IMF's Articles of Agreement; the purported agreement is null and void *ab initio*.

Sincerely,

Karen Hudes

I shall also ask a Branch member on the ILA's Monetary Committee, MOCOMILA (Sean Hagan, General Counsel of the IMF) if he might consider repeating at ILW the most interesting talk he just gave to the Sovereign Bankruptcy Group (an ILA Study Group) in a telephone conference arranged by Allen and Overy on the Fund's most recent policy statements on sovereign difficulties.

Best to all,
Cynthia
Cynthia Crawford Lichtenstein, Prof em, Boston
College Law School

As a member of the ILA's Executive Committee, I then pointed out that Sean Hagan had exceeded his authority as General Counsel of the IMF and that Cynthia Lichtenstein's proposal was out of order and usurped the Program Committee.

What happened after this? Ten days later, the Acting President of the World Bank, Bertrand Badré, tried to invalidate the Global Debt Facility containing the world's assets, and issued an arrest warrant for me on Interpol. What happened then? I invalidated what Badré tried to do and had Badré fired.

"White Hats Auxiliaries"? The United States is in interregnum. Christine Lagarde is working for the Network of Global Corporate Control [identified by Vitali, Glattfelder, and Battiston of ETH Zurich http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf,] and has no authority to commit the IMF to any such thing. If this agreement were signed by Christine Lagarde, not only is it null and void, but she is also fired for exceeding her authority under the Articles of Agreement of the IMF <https://www.imf.org/external/pubs/ft/aa/pdf/aa.pdf>, which provide in Article XII, Section 2, that "All powers under this Agreement not conferred directly on the Board of Governors, the Executive Board, or the Managing Director shall be vested in the Board of Governors." The Managing Director of the IMF "shall conduct, under the direction of the Executive Board, the ordinary business of the Fund." Since

neither the Board of Governors, nor the Executive Directors of the IMF approved the so-called "Galactic Agreement," Christine Lagarde had no authority to commit the IMF to the purported "Galactic Agreement." The General Counsel of the IMF would also have to be fired for incompetence, and inability to properly interpret the Articles of the IMF.

The Board of Governors of the World Bank and IMF have already committed to replace the unconstitutional Federal Reserve Notes for constitutional currency issued by the US Treasury Department, composed of the monetary gold reserves of the US that are administered by the Board of Governors in the Global Debt Facility. Pope Francis, under the Grey Pope, who is in turn elected by the bloodline families, and under the Black Pope Adolfo Nicholas, Superior General of the Society of Jesus, have been secretly "skimming" off the taxes collected by the Network of Global Corporate Control.

The ponzi scheme known as country debt has been offset by the 2 quadrillion in Treaty of Versailles bonds issued by the Federal Reserve Bank and the rest of the interconnected private central banks that belong to the insolvent Bank for International Settlements.

<https://s3.amazonaws.com/khudes/treaty+of+versailles+offer+of+sale+2+quadrillion1.pdf>

The Board of Governors of the World Bank and IMF declared these central banks in receivership in the Global Debt Facility on April 19, 2015. <https://s3.amazonaws.com/khudes/Twitter4.19.15.pdf>

Now I will give you my conversation with Jolanda see https://youtu.be/6M9_daDp1x8 about who is in control, and then I will show you how some of the dominoes, that is the corrupt money system, is falling. What is helping us to be certain about the way the dominoes are falling is the understanding that Japan and Germany are not going to allow the Federal Reserve Note to fail and unilaterally surrender the US military might. We know this from the power transition model that came from the US National War College. <https://s3.amazonaws.com/khudes/sentia+model.pdf>

Hello Karen, I appreciate very much what you're doing. I follow your videos for a while now. I don't want to offend you, but despite of all I've quite some questions and doubts. For instance. When is the planning for the reset and what is exactly in your way? Regarding world war III. It's obvious what is going on in/against Syria, the trade war against China, the demonizing of Russia, the sanctions against Iran. They are pushing for war. How can Trump, along with France and Great Britain still send missiles to Syria? The Israeli bombs Syria without any notice in the MSM. Everything said here fore is breaking the International laws. The stock market is without doubt massively and off the Richter scale manipulated and that is world wide. Who is doing that with whose money? This said, I don't see how you're in control. Please explain.

[Karen Hudes](#)

Hi Jolanda. We are doing things differently. The false flags are not working, as you have pointed out. Who is in control? We are because we see through the lies and corruption. Syria knows that we are all in this together and that we see what the Banking Cartel is trying to do, AND WE DO NOT BUY THEIR AGENDA. There is a critical mass that sees through the lies at work already. We are just getting started. The planning for the reset -- we are cutting off their money and bribes for starters, and then we are going to go back and make other decisions as we decentralize. The take-away -- that the Banking Cartel is pushing for war, to keep their corrupt money system, is evident. They are not getting what they want, are they? They are getting an increasing number of people who see through their lies. Do not forget that they are not getting their hands on the assets in the Global Debt Facility. That is evident.

[Karen Hudes](#)

Pull the trigger? But the trigger is the coalition for the rule of law, that is, all of us working together. As we accumulate more people who know the difference between reality and the Banking Cartel's lies, then we gain people in the coalition exponentially for implementing the currency exchange. We have achieved that the Global Currency Reset is inevitable and manifest in reality by reaching and convincing a critical mass of people. The Global Currency Reset is like a chain of dominoes falling. The trigger has already been pulled, and we need for the chain of dominoes, fueled by more and more people learning what is reality, to continue working its relentless way. 2/3 of the population is not going to be killed because the Banking Cartel has lost its control. That is evident.

[Jolanda](#)

Karen, pull the trigger wasn't a reaction of me. By the way, the reaction is gone.

[Jolanda](#)

Not a very clear answer. How can they still manipulate the stock markets massively. Who is doing that with whose money?

[Nick Blain](#)

Jolanda you must frame this argument within the context of seigniorage, that is the difference between the cost of dollars and the value of dollars. This surplus in value should be retained by the people, each individual holds these notes. Each individual is entitled to the face-value of the bills. Unfortunately, we do not currently hold this value as bearer of the notes. This is where discrepancy in market values make claim to the foregoing facts.

With this segment, I am documenting the corruption in the world's monetary system. I have been able to provide very detailed information because I have been working with the world's whistleblowers and others for many years.

Karen Hudes

@KarenHudes

The assets in the Global Debt Facility remain for the Global Currency Reset; the moochers also known as ancient Pharaonic bloodlines have had their day, and that day is clearly over for once and for all.

I am showing you a three year old tweet containing a comment that RT never posted, all about the corruption in the world's auditors. <https://s3.amazonaws.com/khudes/Twitter6.27.15.1.pdf>

The Banking Cartel blocked last week's Tweet, so I am reprinting it at the back. The Banking Cartel has obviously forgotten that with the critical mass of people who see the difference between reality and their lies, blocking the information that I provide only backfires by confirming the existence of the Banking Cartel and what it is they are trying to censor. What are they trying to censor? That all the attempts to steal humanity's assets in the Global Debt Facility, including the world's monetary gold reserves, have failed. The Banking Cartel consists of bumbling, impotent, idiots. Their attempts to hide my posts only confirms the existence of these assets that do not belong to the Banking Cartel or any of its agents, including that liar TIBURCIO VILLAMOR MARCOS TALLANO TAGEAN IV:

Karen Hudes right now

As a whistleblower who was retaliated against for trying to correct inaccurate financial reporting in the World Bank's financial statements, I testified in 2012 about the corruption in the international financial system to the Committee on Budgetary Control of the European Parliament. I also reported this corruption to Dr. Josef Moser, President

of the Austrian Rechnungshof and Secretary General of the International Organization of Supreme Audit Institutions. The staffmember in the European Parliament who advised me to keep my email to Dr. Josef Moser was fired for his efforts to end the corruption I had reported.

To Dr. Josef Moser, President of the Austrian Rechnungshof and Secretary General of INTOSAI

Your Excellency,

I have been reporting significant and pervasive control deficiencies at the World Bank for many years as in-house counsel at the World Bank. The World Bank refused to cooperate with a US Government Accountability Office investigation requested by Senators Lugar, Leahy and Bayh:

"In March 2009, GAO staff stated that 'we cannot begin this work because of challenges we recently faced in gaining access to World Bank officials to discuss these types of questions. We are continuing to negotiate access with World Bank officials but this process is likely to take at least several months.' Senator Lugar's staff continues to press the World Bank and GAO to begin this report during the first half of 2010."

See page 18 <http://www.foreign.senate.gov/imo/media/doc/55285.pdf>

I am now a bondholder of the IBRD, and commenced litigation against IBRD and its external auditor, KPMG. I have requested the Board of the World Bank to remove this litigation from the DC Circuit Court of Appeals.

The World Bank's General Counsel, who is supervising the litigation, is part of the internal control lapses.

I have testified before the European Parliament and the UK Parliament posted my evidence on its website twice. The latest testimony was published on November 2, 2012 and is at:

<http://www.publications.parliament.uk/pa/cm201213/cmselect/cmpubadm/writev/publicpolicy/mo3.htm>

I spoke this morning at length with Mr. Einar Gorrissen about my request for INTOSAI to advise the Dean of the World Bank's Board, Dr. Merza Hasan, on this matter.

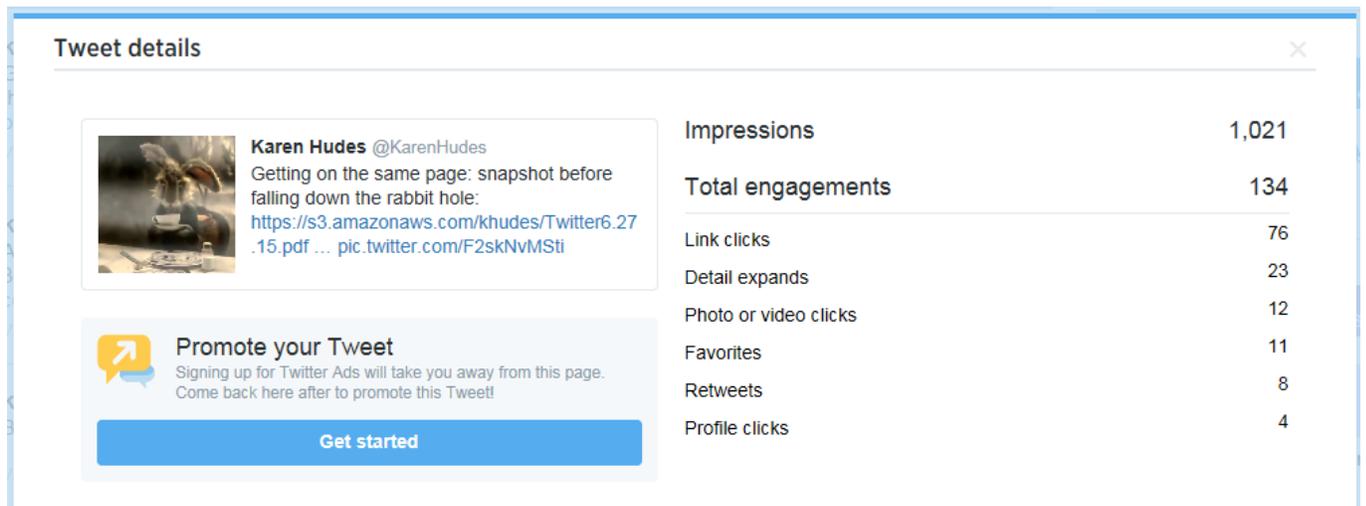

Sincerely,
Karen Hudes

What does this mean precisely? I still have difficulty with your generalizations like "bring into compliance" and "rule of law" without precise definitions and concrete meanings. Sorry.

I would keep your email to Dr. Josef Moser as a Word-document with date, sender and recipient in the file name.

I am incorporating this information about the Philippines because we are building on Ferdinand Marcos' efforts in the Global Currency Reset and also because José Rizal, who deposited the wealth of the world in the Global Debt Facility, worked with the Datus. In two

The first tweet provides a good introduction and summary to "newbies".

If you get to thinking you're a person of influence, try ordering somebody else's dog around.
- Will Rogers

It is important for me to repeat Will Rogers' advice, so that people understand my role as Overseer Mandate Trustee of the Global Debt Facility. I say that we are all in this together. I am not about pulling rank. This is a job that I am doing on behalf of all of us, and even though part of my job is to tell it like it is to the world's muckety-mucks, I understand that each and every person who is fed up with the Banking Cartel is just as good as anybody else.

If you get to thinking you're a person of influence, try ordering somebody else's dog around.

OUTTRO As the corruption in the world's money comes into better focus, so do the persons responsible for trying to cover it up. The corruption is at the very top of the world's money system. These corrupt people have lost their control because they are corrupt.
