

## Update

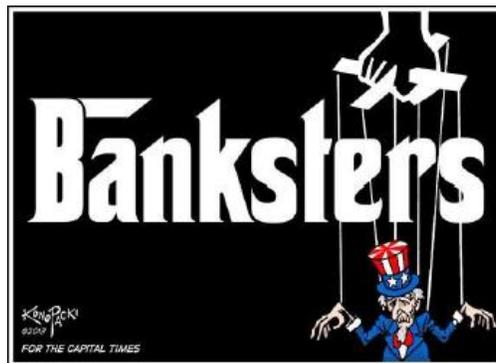

### INTRO

Good evening, I am your host Karen Hudes and today is July 7, 2015; this is the tenth segment in the series on The Network of Global Corporate Control. The Network of Global Corporate Control was studied by three mathematicians at the Federal Institute of Technology, who published their study in 2011 showing that 40% of the assets and 60% of the annual earnings of the 43,000 companies on the capital markets are owned by a "super-entity".

Today's segment will provide an update on the issues that are being raised by a coalition for the rule of law that is fighting the Network of Global Corporate Control. This coalition is seeking to return the world's monetary gold reserves in a trust for the benefit of humanity that is administered by the 188 Ministers of Finance and Development on the Board of Governors of the World Bank and International Monetary Fund. The World Bank and IMF are referred to as the Bretton Woods institutions. I worked for 21 years in the World Bank's legal department, and was reinstated by the Board of Governors after I bought a World Bank bond and sued for violations of the World's securities laws. The World Bank's financial statements were inaccurate, and the securities laws were violated by the World Bank.

This is to taxpayers organizations and the state legislatures in the United States. We can only be independent if we understand whether or not we are independent. Our understanding of reality is flawed because a banking cartel has bought up our governments, our publishers, mainstream media, and our universities. This is documented fact. Fortunately, a dedicated insider, Jose Rizal, established institutions that could provide a platform that would be able to fight back: the World Bank and the IMF. Jose Rizal also hired a young lawyer to put the world's gold into trust so that the world's wealth would be available for humanity. That lawyer was named Ferdinand Marcos, and the trust is called the Global Debt Facility.

Wolfgang Struck, the authorized signatory on the Global Debt Facility, has appointed me as his lawyer to make certain that humanity receives its gold back. I have prepared the Monetary Agreements that your respective governments are about to sign, and which will give us our independence. Let us celebrate today, for we are going to become truly independent for the first time.

Sincerely,  
Karen Hudes

talk about Board of Governors, June 30th what happened at Bank with Allied Barton when Executive Director and Retirees' tried to admit me.

Sent Allied Barton an email that Ministry of Foreign Affairs in Holland wanted me to discuss about Dutch gold and what happened with International Court of Justice trying to steal Holland and rest of the world's gold. Article V Section 5 (c) The President, officers and staff of the Bank, in the discharge of their offices, owe their duty entirely to the Bank and to no other authority. Each member of the Bank shall respect the international character of this duty and shall refrain from all attempts to influence any of them in the discharge of their duties. Paper in 1946 that ED's may interpret Articles: THAT the Executive Directors of the International Bank for Reconstruction and Development are invited, at the request of the Governor for the United States of America, to interpret the Articles of Agreement, pursuant to Article IX (a), as to the authority of the Bank to make or guarantee loans for programs of economic reconstruction and the reconstruction of monetary systems, including long-term stabilization loans. happened on the 4th of July:

to DC Council:

Washington DC has a special role to play in ending the corruption that has nearly defeated the United States of America. Instead, with your help, we can stand strong and free alongside our allies in the coalition for the rule of law. Yesterday afternoon Officer E.V. Lescano, Badge No. 3418, responded to a telephone call from Allied Barton, security guards at the World Bank. The security guards are employed by the Network of Global Corporate Control, a private conglomerate that secretly owns 40% of the assets of the 40,000 companies traded on the world's capital markets (including the Federal Reserve and the rest of the 60 central banks that are part of the Bank for International Settlements). The Network of Global Corporate Control is trying to steal the US' monetary gold reserves and the rest of the world's wealth that was placed in a trust called the Global Debt Facility at the end of WWII which is administered by the World Bank and International Monetary Fund. I am the lawyer for the Global Debt Facility.

The Network of Global Corporate Control is in receivership in the Global Debt Facility. Allied Barton is part of the corruption that is trying to bring down the entire United States

through crashing the Federal Reserve Notes that are issued by the private bankers as our currency. Any president that tried to replace this unconstitutional currency was assassinated (Lincoln, JF Kennedy) or shot (Ronald Reagan). I have already reported to the Board of Ethics and Government Accountability and to the DC Council that DC is going to lose its largest employer if it does not respect the authority of the Board of Governors of the World Bank and International Monetary Fund that run the Bretton Woods institutions. The Board of Governors has reinstated me as Acting General Counsel of the International Bank for Reconstruction and Development. <https://s3.amazonaws.com/khudes/reinstatement3.pdf> The IBRD is the oldest of the World Bank's five agencies.

When I informed Officer Lescano that I have placed this matter squarely before the Civilian Complaint Review Board established under D.C. CODE § 5-1107(a) (2005), the Board of Ethics and Governance, and the DC Council, Allied Barton deliberately lied to Officer Lescano and said that there was a valid barring notice. There can be no valid barring notice unless it is signed by the Board of Governors that run the World Bank and IMF. Allied Barton illegally refused to admit me on Tuesday at the request of one of the Executive Directors and the World Bank retirees' association, and I reminded Allied Barton yesterday morning that their refusal to admit me was illegal:

I am copying Allied Barton, whose security personnel are hereby instructed that they have no authority to prevent me from entering World Bank buildings. The President of the World Bank and the personnel of the World Bank are subordinate to the authority of Board of Executive Directors. Yesterday I simply hand delivered to Allied Barton's security guards an envelope addressed to Allied Barton containing a hard copy of my email informing Ms. Gardner that Allied Barton had no authority to refuse to admit me to the World Bank headquarters. <https://s3.amazonaws.com/khudes/Twitter7.3.15.2.pdf> Allied Barton's security guard on duty at the garage entrance asked me to deliver the envelope to the front of the building, which I did. The guard accepted the envelope, and I then walked half a block down Pennsylvania Avenue. The Allied Barton security guard started shouting to me that I had to take back the envelope, which I refused to do. An Allied Barton security guard then ran after me, and put the envelope into my purse. I returned to the main entrance and when Allied Barton refused to take back the envelope, I put it on the sidewalk in front of the door. Several people who exited the headquarters picked up the envelope, and Allied Barton shouted to them to leave the envelope lying where it was. Then Allied Barton called the DC Police, and I sat on the bench outside the entrance waiting for the DC Police.

Describe what I said to DC police:

There can be no valid barring notice unless it is signed by the Board of Governors that run the World Bank and IMF.

When Allied Barton could not produce a barring notice, Officer Lescano handed me a slip of paper on which Allied Barton wrote the address of their offices in Alexandria, Virginia. I then sent the following email to Allied Barton, following up with hard copies by priority mail:

Allied Barton illegally refused to admit me on Tuesday at the request of one of the Executive Directors and the World Bank retirees' association, and I reminded Allied Barton yesterday morning that their refusal to admit me was illegal:

On Monday Allied Barton called me:

India & new power source.

Reactionless AC Synchronous Generator (RLG) invented by India's own Paramahansa Tewari, an electrical engineer and former Executive Director of Nuclear Power Corporation of India.

Years ago, Tewari had also proven the theories inside Bruce de Palma's homopolar engine. Obviously, a country cannot implement its own free energy program without considering all possible consequences including a military response from Petrodollar countries, e.g. Saudi Arabia, UK, US. That's why India has been aligning its own military program with that of Russia.

Talk about corruption in BRICS - coalition & game theory.

Veterans Today wants to deflect its readership into blaming the branches instead of the roots of the problem. The Organized Crime Cabal, as Preston James calls it, is actually something much larger and more sinister. Three mathematicians at the Federal Institute of Technology identify the "network of global corporate control" as the real culprit which was responsible for the crimes

At the center of this network is the Vatican's bank, and behind this are the Society of Jesus and the bloodline families. This network also consists of secret societies, including the Knights of Malta, which see to it that traitors are placed in strategic posts at the pinnacle of the military and the rest of society. These traitors serve Rome. That is why Veterans Today has removed my questions to Martin Dempsey, Chair of the Joint Chiefs of Staff at his two town hall meetings. Dempsey is trying to crash the Federal

Reserve Note and surrender US military might unilaterally. Jon T. Rymer, Inspector General of the Department of Defense, is gutting the military personnel policies and purging the heroes, Vice Admiral Tim Giardina and Major General Michael Carey, who refused to nuke citizens of Charleston South Carolina on October 7, 2013.

OUTTRO Thank you for listening to another segment of "The Network of Global Corporate Control." We have discussed how the security guards owned by the Network of Global Corporate Control were trying illegally to prevent the Bretton Woods institutions from replacing paper currencies with currency made from the world's monetary gold reserves and whether the DC police, the DC Council, the Board of Ethics and Government Accountability and the Civilian Complaint Review Board are going to stop colluding with The Network of Global Corporate Control. When the bankers claim the people of the world owe country debt, this is nothing more than a big scam. In reality it is the bankers who owe this debt. Next week's segment will answer questions about when the currency reset will happen and what individuals can do to help. Until next week, I am your host, Karen Hudes.
