Dear Mark Flanders,

Thank you for your email. I am calling for an end to the cover-up of corruption. The Ohio Legislative Service Commission is supposed to conduct nonpartisan studies of legislative issues, including fiscal analysis services, during the interim periods between legislative sessions. This is what is about to happen to Federal Reserve Notes:

- <https://s3.amazonaws.com/khudes/usdollar1.pdf>
- <http://www.youtube.com/watch?v=Zy-2GaT6RMo&feature=youtu.be&a>
- <https://s3.amazonaws.com/khudes/fekete.docx>

plunging Ohio citizens and the rest of the world into another dark ages. The US credit rating is about to tank, which will prevent Ohio State and its municipalities from issuing bonds.

The World Bank is out of compliance on the capital markets. You owe a duty under Ohio State's blue sky laws to citizens of your state to ensure that accurate financial information is provided to bondholders in your state of the \$180 billion World Bank bonds, a responsibility even more telling in light of the secret ownership and censorship of the media by this group:

http://arxiv.org/PS_cache/arxiv/pdf/1107/1107.5728v2.pdf

Please let me know if the Ohio Legislative Service Commission is still withholding the information I provided to you for onward transmission, and I will forward my emails to others in the Ohio state legislature. It is my understanding that the other state legislative agencies whom I have contacted are doing their duties. If not, by copy of this email I am requesting them to notify me so that I can make other arrangements for the affected state legislatures.

Sincerely,
Karen Hudes
Acting General Counsel
International Bank for Reconstruction and Development

Dear Romanz,

These are facts about the Global Debt Facility containing the world's wealth. I am attaching the following exchanges of emails on this subject for background.

Yesterday I informed the state legislatures in the United States that the Spring Meetings of the World Bank and IMF determined to mint the nations' currencies with the gold in the Global Debt Facility.

<https://s3.amazonaws.com/khudes/fstatelegislatures.pdf>

Neither the Chair of the Joint Ministerial Committee of the Boards of Governors of the Bank and the Fund on the Transfer of Real Resources to Developing Countries, nor the representatives of 188 countries on the Board of Executive Directors of the World Bank have retracted this:

<https://s3.amazonaws.com/khudes/breakthrough.pdf> By copy of this email I am informing the New York missions to the United Nations.

I understand that Ferdinand Marcos died, but I cannot state this for a fact because nobody knows where he is buried.

Best,
Karen

Having now done a lot more research, on top of what i previously had done for my own interest and on background.

what can I do? (other than write to my county representatives, state representatives and push for a Constitutional Convention)

Thank you for speaking out. wonderful you were able to get people's attention through alternative media!

I want to be part of the solution. The Federal Reserve needs to be replaced, and I had previously come to the conclusion the red seal certificates President Kennedy issued were part (or all) of the reason he was killed as issuance circumvented interest payments on Fed Reserve notes.

I need some direction

Best regards

hello, regarding interview with Karen Hudes, while I agree with you, I believe the Phillipine gold source is Japan, and that it is "loot" from Asia. Ferdinand Marcos was involved in a publicized confiscation of a gold Buddah, alleged to be in a Swiss bank vault under the airport in Zurich. As Marcos made a duplicate in bronze to pass off, the original find was by a citizen, the statue not filipino.

Are you arguing this belongs to humanity without discussion of the provenance? As it seems to me it is.

Very truly yours, and thank you for speaking out

Robert,

The world's gold is not being handed out, it is being converted into currency to replace the toilet paper on which the bankers charge usury. Should we continue to permit these bankers to enslave the people? Why not fend the bankers off with gold coins that belong to the people?

Best,
Karen

I can spare you the history of how some French people feel the hopelessness after fall of Louise 16th, and feel even worse after Robespierre rule the country, and how even worse after the defeat of Napoleon with Allies marching into Paris. It's like peeling an onion, there is always another core order to retreat to after the total failure of one civilized mechanism.

As I mentioned, If gold is the ultimate measure of wealth, then Phillipine should be the richest nation on planet earth, bar none. The reason Phillipine is still poor, they need to send their people around the world as servants to earn foreign capitals to send back home, is because government is corrupted, people are corrupted, years of colonial rule rob them of self esteem to built anything upon.

Check this thought, what if you grant every single welfare recipient in Newark NJ one hundred pound of gold. I can guarantee you these people will be in the same financial shape 5 years from now.

What kills the world finance are two isms, elitism and welfareism, Communism, Fascism, Secret society ism are all elitism, they use

welfareism to fool the masses. Just patch up the surface without facing the root of the problem is very much a wishful thinking for a solution.

To me, Gold is the last resort. That's when everything else fail, we always have gold. What German economy has right now is better than gold, German people have a rule of law, who are culturally, ethically incline to follow it. What Ukraine has right now is also gold, they have one of most fertile land in Europe, their scientist and engineer are among the best in the world. What Russia have right now is also gold, "Natural resources". I will take these three countries over any million ton of gold in the world.

All they need is a little tweaking here and there, their combine economic output will put western Europe and US to shame. Again, gold is the doomsday last resort, let's try something else first.
