Cislunar electron density determined by radar group delay measurements Howard, H. T. Unspecified Center NASA-CR-81279, SEL-66-113, SR-17 NSG-377 24412 CISELUNAR SPACE; ELECTRON DENSITY (CONCENTRATION); IONOSPHERIC ELECTRON DENSITY; RADAR MEASUREMENT

---

a very high frequency radio interferometer for - NTRS - NASA - TEC is significant in determining scintillation and group delay of a radio wave. Slant TEC is a measure of the total electron content of the ionosphere..

Electron Content (TEC) Prediction at Ionosphere - CISLUNAR ELECTRON CONTENT AS DETERMINED BY RADAR GROUP DELAY MEASUREMENTS Jan 1, 1967. by H.T. Howard &middot; Pamphlet. \$6.90\$690 The Use of the Total Electron Content Measured by - Hindawi - Books to Borrow \_ N Key Words: Ionosphere Electron Content Index of Refraction Time Delay Refractive Bending Paper The radar measurements of differential group delay have also produced cislunar electron content (Howard, 1967). The refractive index, as defined by Equation (2-1), is applicable for estimating the a very high frequency radio interferometer for - NTRS - NASA - CISLUNAR ELECTRON CONTENT AS DETERMINED BY RADAR GROUP DELAY MEASUREMENTS Jan 1, 1967. by H.T. Howard &middot; Pamphlet. \$6.90\$690 Cislunar electron content as determined by radar group delay - In the long run of history great advances for man will be found in exploration and scientific.. 2) An extension of the program of electronic (Hiran) measurements of. by the time delay or phase shift in the signal received from the fixed points... Radar observations show the three-dimensional array of many cloud types, Ionospheric correction of space radar data - arXiv - Books to Borrow \_ N Key Words: Ionosphere Electron Content Index of Refraction Time Delay Refractive Bending Paper The radar measurements of differential group delay have also produced cislunar electron content (Howard, 1967). The refractive index, as defined by Equation (2-1), is applicable for estimating the
