Doctor Who Short Trips is a series of themed short story anthologies of new Doctor Who fiction, featuring the Doctor in all of his first eight incarnations. They feature stories written by some of the leading names in Doctor Who, past and present, including Paul Cornell, Gareth Roberts, Christopher H. Bidmead, and Paul Magrs. A Day in the Life features 16 stories whose total "running time" adds up to a single 24-hour period: a fictional "day in the life of the universe," made up of fragments from throughout time and space. Given the temperamental nature of the TARDIS and the round-the-clock events that go on every single day, it's no wonder that the Doctor often arrives at his destinations at differing times. As we leave one story and join the next, we switch location and era—but not the hands on the clock.
