Manifestation* **INTRODUCTION** Manifesting...*your Dreams*... S O many times, I have
had conversations with people who say that they have a dream but they don't know how to make it
happen. They want to make a living doing what they love by opening a business but don't know
where to begin. I often tell people that if they tap into their purpose then it's there in their
purpose that they will find their passion for life but also they will find their prosperity. When we
pray and ask God to bless us in the area of prosperity, he often gives us an idea for wealth.
Unfortunately, once we have the idea, we often don't know what we should do next. This manual
is a guide to provide direction and instruction for those who are ready and willing to do go forward
in their destiny. We will identify your goal and then provide the guidelines to writing out the steps
on how to get there. If you want to start this journey of manifesting your dreams then join us.
How far you go is up to you. Chapter 1 OVERVIEW Of your goal Overview, KNOW
where you're going... Overview is a look at your process to SUCCESS. There is a saying that
one of the richest places in the world is the grave yards. It is because so many people leave the
earth unfulfilled & carry their dreams & visions to their graves. This manual is written to help you
have a different outcome. It is to help you walk into your destiny. I don't claim any magical
overnight success but I do have a proven formula that works if you simply follow the process. You
can use it time and time again. I work as a consultant & apart of what I do is called process
improvement. I am brought into an organization to observe the current process & help companies
find more efficient/productive ways to do what they are doing. In this same way, there are tons of
people that have dreams but they do not know how to achieve them. Each year many people set

out to achieve goals, start businesses, go back to school, save money etc. but fall short and can't figure out why. If you can relate to what I'm saying then this is for you.

A business planning/goal-setting guide for Christians to help them operate in their God-given gifts and talents. This manual gives instructions on how to develop your process to success, step by step.
