Cover Design: Galina Mtgalko MD, NMD Photography by Robert O. Young, MSc, DSc, PhD and Galina Migalko MD, NMD ISBN: 1484972406 ISBN-13: 9781484972403 Printed in the United States of America **Abstract** This article suggests that the use sodium and potassium bicarbonates are non-toxic primary alkalizing agents in the prevention and treatment of all cancers, kidney disease, liver disease, Type I & Type II diabetes, Lupus, heart disease, Pharmacological toxicosis, vascular surgery operation, tonsillar herniation due to cerebral edema, lactic acid toxicosis, and hyponatremia or low salt or loss of salts due to excessive or over-exercise! **Key Words:** cancer, diabetes, lupus, heart disease, vascular surgery, herniation, cerebral edema, lactic acid toxicosis, liver disease, kidney disease, hyponatremia, Pharmacological toxicosis **Introduction** Sodium and potassium bicarbonate are excellent agents for a natural alkaline approach in the treatment for all sickness and disease, including cancer. Sodium bicarbonate is the universal mainstream treatment of acidosis. It is used every day by oncologists to neutralize the heavy acidic nature of their chemical and chemotherapeutic agents which are often quite toxic. Sodium bicarbonate is also used routinely in many clinical situations as herein noted including many peer--reviewed journals: 1) Severe diabetic ketoacidosis (1) 2) Cardiopulmonary resuscitation (2) 3) Pregnancy (3) 4) Hemodialysis (4) 5) Peritoneal dialysis (5)6) Pharmacological toxicosis (6) 7) Hepatopathy (7) 8) Vascular surgery operations (8) Medics and emergency room medical doctors are accustomed to participating in a flurry of activity when trying to save a persons live after a cardiac arrest--inserting IVs and breathing tubes, performing defibrillation to restart the heart, etc. Sodium bicarbonate is a constant performer under such conditions and is more commonly used than magnesium injections, which is traditionally at the top of every doctor's protocol for cardiac arrest. Mainstream oncologists recognize the routine involvement of late stage infections which I refer to as outfections in all cancerous conditions. Medical savants also recognize that bacteria, yeast and mold is present in over forty percent of all cancerous conditions. (9) The most recent research in this area demonstrates how even viruses, which I describe as crystallized acid, is present in fifty percent of certain types of cancerous conditions. (10) Sodium and potassium bicarbonate increases the hydroxyl ions or electron levels

through increased alkalinity to the cells buffering the metabolic acids that can cause cancer.(20) It is also one of the most basic medicines in allopathic and alternative medicine we have for the treatment of kidney disease. Research by British scientists at the Royal London Hospital shows that sodium bicarbonate can dramatically slow the progress of chronic kidney disease.(11) We don't need a thousand years of scientific tests to understand something as simple and essential as alkaline water and it is quite the same with sodium and potassium bicarbonate. Sodium and potassium bicarbonate are always present in the best alkaline drinking waters and organic raw green foods and is constantly being produced by the cover cells of the stomach to alkalize the acidic foods and liquids we ingest, including buffering metabolic and respiratory acids in order to maintain the alkaline design of the blood and tissues at a delicate pH of 7.365.(20)

This article suggests that the use sodium and potassium bicarbonates are non-toxic primary alkalizing agents in the prevention and treatment of all cancers, kidney disease, liver disease, Type I & Type II diabetes, Lupus, heart disease, Pharmacological toxicosis, vascular surgery operation, tonsillar herniation due to cerebral edema, lactic acid toxicosis, and hyponatremia or low salt or loss of salts due to excessive or over-exercise!

Potassium Supplements Monograph for Professionals - Drugs - Although not all views relating to drug treatment concur, the formulary committee has sought to... autoimmune disease and treatment with beta blockers (refer to product... For potassium levels of $>6\text{mmol/L}$, 0.5ml (0.11mmol)/kg by slow IV... Dopamine can NOT be mixed with sodium bicarbonate and other strongly. Critical Care Medicine E-Book: Principles of Diagnosis and - It has been used in recent times to treat diabetes and cancer. treatment in my book involves lomatium, a broad-spectrum antiviral herb with potential HPV, herpes viruses, and CMV as well as for prevention of viral infections like the flu. used historically by Native Americans, mostly as a treatment for respiratory illness. Treating Cervical Cancer With Baking Soda - The main programme includes three plenary lectures, all given by outstanding scientists. nephrology, developmental nephrology, roots of diseases in adulthood... Arteriosclerosis in children on dialysis - prevention vs damage limitation.. Treatment of metabolic acidosis with sodium bicarbonate delays Cholera - NORD (National Organization for Rare Disorders) - A study published by Cancer Research found that sodium bicarbonate, which is sodium bicarbonate, potassium bicarbonate, and anhydrous citric acid, with 100 years of clinical use and research in the treatment of cancer, kidney disease,. Cure Reverse Diabetes Fix Book Diagnosis and Treatment of Metabolic Acidosis in Patients - who have received postexposure treatment with a varicella and Prevention. Epidemiology and Prevention of Vaccine-Preventable Diseases, 13th Edition. April, 2015.. human albumin, sodium bicarbonate, potassium

phosphate monobasic. by 4-8 weeks. All varicella-containing vaccines should be administered by. Renal Tubular Acidosis - VetFolio - Although not all views relating to drug treatment concur, the formulary committee has sought to... autoimmune disease and treatment with beta blockers (refer to product... For potassium levels of >6mmol/L, 0.5ml (0.11mmol)/kg by slow IV... Dopamine can NOT be mixed with sodium bicarbonate and other strongly. Bicarbonate's Importance to Human Health - Mg Water - See which foods are high in sodium, and get tips on how to cut back. Such diseases as congestive heart failure, cirrhosis and chronic kidney disease can Virtually all Americans can benefit from reducing the sodium in their diets. some of the problems from excess sodium intake, too much potassium can be harmful, Mycoplasma Herx - Lab Tests Online Neurology Quizlet - Sodium bicarbonate: Class Ia and Ic antidysrhythmics (quinidine, . All of these "off-target" effects of Class I antiarrhythmic drugs may cause important. Heart Diseases in Children
www A Pediatrician's Guide Ra-id Abdulla The treatment of these arrhythmias is either medical with a beta-blocker, Baking soda testimonials - SHUM-PRO.RU - This baking soda treatment is based on the thesis that "Cancer Is a Fungus" (which is also may include severe abdominal pain, vomiting, diarrhea, collapse and death. Consequently, therapy to correct acidosis, usually with sodium bicarbonate is for preventing contrast-associated acute kidney injury is marginal, if any. Potassium Supplements Monograph for Professionals - Drugs - Sodium selenite is the inorganic compound with the formula Na₂SeO₃. of that element present in the formula, then adding all of these products together. manganese chloride, potassium iodide, sodium fluoride, sodium molybdate. for the prevention and treatment of white muscle disease (Selenium-Tocopherol
