Cleaning His Instrument Book 2 of the *Build-A-Boyfriend Series* Adult Paranormal/Monster Erotica Edition 1 By: Jess Gardner *Shit.* It's only just now sinking in. *There's a Dead Guy in my kitchen.* Well, to be a bit more accurate, there is an amalgamation of dead guys constructed from the prettiest parts I could find, sewn together, and brought back to life. And now, he's rifling through my pantry. *How the hell am I going to even begin to present this at the University?* I had slaved away on resurrecting a human for months. I had waited patiently at the morgue, identifying what parts I wanted and secreting away to steal those pieces to add to my little construct. I had literally broken the boundaries of science, of life and death, and now I didn't know what to do with him. Frank, at least that's what I decided to call him since he technically doesn't have a real identity of his own, looks over at me with a smile. It's brief, but it's enough to jar me from my thoughts. This wasn't some lab experiment. He was a living human being...at least, I think he is. *Yea, a living human being made of stolen parts.* Like any good scientist, I recorded my findings. I could, theoretically, present the data without any issue and change the fabric of the world we know. I will literally be the most famous and recognized person in the world. The woman who conquered *death.* *No!* What use was fame if it was infamy? There was no way I could submit the data. Not only did it incriminate me of grave robbing, corpse mutilation, and about a dozen other indictable crimes, but the video and audio documentation was pretty much little more than a sex tape. *Yep...that happened.* In my experiments with resurrection, I had found that, while the process worked pretty effectively, the test subjects woke up with a rapidly increased libido that not only demanded immediate attention, but also came back in unexpected bursts. In rats, I never really thought much of it.

What do you do when you've actually managed to bring someone back to life put probably broken more than thirty laws in the process of doing so? That's exactly what Lana is facing now that she has her undead creation, better known as Frank, exploring, eating, and destroying her Kitchen in the process. Take a look and see what happens as she is forced to get dirty while trying to get Frank clean.
