[DOWNLOAD FULL EBOOK PDF]

FIND THE SURE-BET BY MICROSOFT EXCEL FILE. This Ebook allows you to search the safe bets by betting on three different bookmakers. In fact, the differences in percentages between the Bookmaker create the conditions to make a safe bet. Identified the event that creates the sure bet you've got to bet on the three Bookmaker covering all possible results: 1 X 2. The ebook calculates the amount to bet on the three Bookmaker to get a payout greater than the amount played. The amount of the bet must be repartitioned on the three possible results to always have a gain. You lose the bet on two bookmakers but win the bet on third Bookmaker and the amount won is greater than the amount played. But it is difficult to find the sure bet, it takes patience and time. This discourages the punter, because it is a job long enough. And then another negative point is the low payout. So it must be considered a long-term game plan. You do not become rich immediately. This Ebook helps to create a Microsoft Excel file to find the sure-bet to speed up the search of the Sure-Bet. After the creation of the Microsoft Excel file, you must enter the events and quotations Bookmaker to find the sure-bet. The Sure-Bet are mathematically safe. It is a Sure-Bet if the sum of each quote divided one is less than one. The Microsoft Excel file partitions the money to bet on the three results to always obtain a gain whatever the outcome: 1 X 2. Before purchasing this Ebook, look for more information on the Sure-Bet. You evaluate the advantages and disadvantages. **_IMPORTANT_ _It is recommended to check the Sure-Bet before playing. Make sure the actual gain obtained any possible outcome. It's very, very important._** **We start!** Open a new Microsoft Excel file. See the following image: Create a new cell-block from A3 to E4 and modify the cell-format. See image: Set the following property: set cells union and text alignment (center). See image
