Re: Peer Review of the Draft Global Report on Collective Progress in the Implementation of the Kunming-Montreal Global Biodiversity Framework — Submission by the NBSAP Accelerator Partnership

Dear CBD Secretariat,

On behalf of the NBSAP Accelerator Partnership, I am pleased to submit the attached comments to the peer review of the draft Global Report on Collective Progress in the Implementation of the Kunming-Montreal Global Biodiversity Framework (notification 2026-047).

As you are aware, the NBSAP Accelerator Partnership is a country-led initiative that, supports countries in accelerating the implementation of their National Biodiversity Strategies and Action Plans (NBSAPs) and collectively achieving the goal of living in harmony with Nature by 2050, Co-chaired by Colombia and Germany and hosted by the CBD Secretariat, the United Nations Development Programme (UNDP) and the United Nations Environment Programme (UNEP), the NBSAP Accelerator Partnership has financial support from the German Federal Ministry for the Environment, Climate Action, Nature Conservation, Nuclear Safety and Consumer Protection (BMUKN) through the International Climate Initiative (IKI), with additional contributions from Canada, France and Norway.

Our comments are grounded in direct experience supporting members across multiple regions in NBSAP implementation, target-setting, means of implementation, and knowledge management. They address the following sections of the draft report: General, Summary, Part II.B (Implementation of global targets), Part II.D (Means of implementation), and Part II.E (MEAs and international organizations). The full set of comments is included in the attached template, following the format requested by the Secretariat.

We trust these inputs will contribute to strengthening the final report ahead of its consideration at SBSTTA-28, SBI-7, and COP-17. The NBSAP Accelerator Partnership remains fully committed to supporting the global review process and the effective implementation of the Kunming-Montreal Global Biodiversity Framework.

Yours sincerely,

Katherine Madden
Global Coordinator
NBSAP Accelerator Partnership
