National Biodiversity Centre
Ministry of Agriculture & Livestock
Royal Government of Bhutan
Material Transfer Agreement

Reference No: NBC/ BRD/7/2026-2027/ 305

Article 1 – Parties to the Agreement

1.1 This Agreement is made between:

National Biodiversity Centre (NBC), Ministry of Agriculture and Livestock, Serbithang, Thimphu, Post Box No. 875. ***(National Focal for Access to Genetic Resources and execution of Material Transfer Agreement).***

Applicant: **Mr. Choki Dorji,** bearing CID number: **11105003450, Associate Lecturer, Centre for Bhutan & GNH Studies, currently a Master's Student at the Laboratory of Plant Breeding, Graduate School of Agriculture, Kyoto University, Japan** (hereinafter referred to as Applicant"),

And

Recipient: **Dr. Yasir Serag Alnor Mohammed Serag Alnor,** bearing Passport No: **P10747650, Associate Professor, Laboratory of Plant Breeding, Graduate School of Agriculture, Kyoto University, Tel: 075-753-6045, Japan** (hereinafter referred to as "Recipient").

Article 2 – Preamble

2.1 The Material Transfer Agreement is executed in fulfilment of Article 5 of Section 92 of the Biodiversity Act of Bhutan 2022 and based on the National Biodiversity Centre's approval note-sheet No: NBC/BRD/7/2026-2027/**271** dated **28th September 2026.**

2.2 The Applicant and the Recipient acknowledge that the Royal Government of Bhutan (hereinafter referred to as RGoB) retains legal ownership of the Material. The Applicant is authorized to transfer to the Recipient the Material specified under Article 4 of this agreement

Initial applicant

Initial Recipient

upon execution of this Material Transfer Agreement (MTA) between the Applicant and the Recipient.

2.3 The Applicant and Recipient shall jointly be referred to as "Parties".

Article 3– Definitions

3.1 In this Agreement the expression set out below shall have the following meaning:

"Material" shall mean **'72 dried DNA pellets of wheat comprising of 67 accession from Bhutan National Gene Bank and 4 released varieties from Agriculture Research and Development Centre (ARDC, Bajo)'** as mentioned in article 4.1 of this Agreement.

"Applicant" means the person/institution providing the material and for this agreement **Mr. Choki Dorji, Associate Lecturer, Centre for Bhutan & GNH Studies, currently a Master's Student at the Laboratory of Plant Breeding, Graduate School of Agriculture, Kyoto University, Japan.**

"Recipient" means the person receiving the material and for this agreement, **Dr. Yasir Serag Alnor Mohammed Serag Alnor, Associate Professor,** representing **Laboratory of Plant Breeding, Graduate School of Agriculture, Kyoto University**

Article 4 - Subject Matter of the Material Transfer Agreement

4.1 **'72 dried DNA pellets comprising of 67 accession of wheat from Bhutan National Gene Bank and 4 released varieties from Agriculture Research and Development Centre (ARDC, Bajo)') and one from Kazhi (farmer's variety)** are hereby transferred from the Applicant to the Recipient subject to the terms and conditions set out in this Agreement. The details of the samples are attached as Annex 1.

Article 5 – Destination

5.1 The destination of the material shall be to the **Laboratory of Plant Breeding, Graduate School of Agriculture, Kyoto University, Japan.**

Initial Recipient

6 -Terms and Conditions

6.1 The Applicant and Recipient undertake that the transferred Material shall be used only **for genotyping as part of the research titled "The Change in the Genetic and Agronomic Trait Diversity of Bhutanese Wheat"** and in case of a change of intent, the Recipient and the Applicant shall seek prior written approval from the Competent National Authority (CNA). The DSI generated through the whole genome sequencing shall be used only for genotyping as stated in the Request.

6.2 The Applicant and Recipient shall take full responsibility for the safety and protection of the material and shall be liable for misuse by any third party. The Material and the DSI shall not be transferred, disclosed, or made accessible to any third party without the prior written approval of the CNA.

6.3 The materials shall be returned to the country of origin or properly destroyed after the successful completion of the study and the DSI shall be submitted to the NFP/CNA and shall not be uploaded in public domain of any forms.

6.4 If the material is referred to any publication by the Applicant, correct reference shall be made by citing the Material Transfer Agreement (MTA) number generated after the signing of this agreement. Subject to journals' regulations on co-authorship and active participation in publications, the applicant, recipient, relevant officials involved in the study shall be included in the joint authorship of any publication resulting from this study.

6.5 The Recipient and the Applicant shall provide an updates on the progress of the study to the CNA through NBC once not later than **31st May 2027** and the full study results, including DSI and confidential information prior to the publication, shall be submitted to NBC accordingly upon completion of the study.

6.6 It is the responsibility of the Recipient to bring to the notice of relevant authorities of the **Kyoto University, Japan** about the conditions set in the agreement and the usage of the transferred Material and the DSI that will be generated from the genotyping of the accessions.

Initial Recipient

6.7 In case of new discovery(ies) derived from the material and the DSI, the Recipient and the Applicant shall inform CNA through NBC of such discovery (ies) immediately without fail and shall not venture into commercialization without prior approval of the CNA.

6.8 The Recipient and the Applicant shall not apply for any intellectual property rights without prior written approval from the CNA. CNA, Applicant and Recipient shall jointly negotiate the ownership and benefit- sharing mechanism arising from the use of the intellectual property rights accordingly to the Access and Benefit Sharing Legislation of the Kingdom of Bhutan.

6.9 NBC makes no warranties as to the accuracy of the any passport or other data provided with the Material and does it make any warranties as to the quality, or Purity (genetic or mechanical) of the Material being supplied.

6.10 The Recipient assumes full responsibility for complying with the counterpart nation's quarantine and biosafety regulations and rules to the import of the Material.

Article 7 – Settlement

7.1 The Parties shall discuss sincerely and settle amicably on matters which are not stipulated in this Agreement or interpretation of this Agreement.

7.2 This Agreement shall be governed by and construed in accordance with the laws of Bhutan.

Article 8 – Signature and Acceptance

In conformity with the above terms and conditions, the parties have executed this Material Transfer Agreement on the dates set forth below.

For the National Biodiversity Centre:

Seal & Signature [Program Director National Biodiversity Centre Serbithang]

Date: 9th October 2026

Name: Dr. Karma Dema Dorji

Designation: Program Director
