Commercial Copyright Compliance for Viewing Movies Onboard

It is essential that shipping companies only allow viewing of films onboard their ships that are fully compliant with media copyright laws. Viewing personal home-licensed DVDs onboard commercial vessels is illegal. KVH Media Group holds the commercial maritime rights for the viewing of movies at sea. We can advise you if you require further assistance, especially in view of the specific MLC-2006 requirement for shipping companies to provide suitably legal film and recreational media content onboard their ships.
