

Kuli Kuli Software Engineering Fellowship

Kuli Kuli is a rapidly growing startup at the intersection of consumer packaged goods (CPG) and social good. We are creating an international market for *Moringa oleifera* to improve the livelihoods and health of women in the developing world. We sell healthy products made with moringa sustainably sourced from women-run cooperatives in Ghana and Haiti. Our products are carried in hundreds of grocery stores and sold online at kulikulifoods.com. Kuli Kuli's mission is to create a world where everyone has access to nutritious sources of food and malnutrition only exists in history books. We've been featured on [MSNBC](#), [NBC](#) and in [Fast Company](#) for our unique products and compelling social mission.

We are looking for a Software Engineering Fellow with a passion for technology and web development to help us grow our company and cause. Through strategic work on our online ecommerce platform, you'll help us scale up our business and deepen our impact. This position presents an unprecedented learning opportunity to gain first-hand experience in web development, ecommerce, and the implementation of online marketing, while being able to shape the trajectory of a high-growth food startup.

Responsibilities

- Implement static content pages according to design documents
- Develop and maintain automated processes for subscription accounts
- Identify and fix performance and/or UX issues related to online purchasing
- Analyze and report on e-commerce conversion rates
- Work with our designer to develop new content and layouts for the website

Required Skills/Experience

- Ruby on Rails, JavaScript, CSS
- Mobile-oriented front-end design engineering
- Familiarity with scripting as a reporting tool
- BS in Computer Science or related major

Hours & Compensation

Small stipends will be provided to qualified full-time candidates with a minimum three month commitment for the summer fellowship and a six month commitment for fall and spring. Start and end dates are flexible for those in graduate or undergraduate programs. The position is based in our dynamic space near the beautiful waterfront of Lake Merritt in Oakland, CA. Perks include unlimited snacks, a gym membership and regular team outings. Based on performance, a full-time offer is possible at the end of the fellowship.

Application Instructions

Email your resume and cover letter to jobs@kulikulifoods.com with your name and the position in the subject line like this, "[NAME] for Software Engineering Fellowship." Applications will be reviewed on a rolling basis.
