

NHD KY

GET READY FOR NATIONAL HISTORY DAY

The Ultimate Project-Based Learning Experience!

National History Day in Kentucky (NHD KY) is an annual educational program and learning competition for students in grades 4-12. Driven by curiosity, imagination, and innovation, NHD KY empowers students to express themselves through a historical topic they are passionate about in one of the five different project categories. This hands-on experience focuses on the autonomy and creativity of each student as they research

a topic of their choice through the lens of an annual theme, interpret its relevancy in context and to our lives today, and display what they learned through a variety of platforms. The judging portion of the competition gives students the opportunity to serve as advocates of their work, which offers real-world experience in building confidence and conviction. Each year, the Kentucky Historical Society (KHS) creates a coalition of

judges across the state to be ambassadors of history in this rewarding student experience that benefits all, inside and outside the classroom. Students in grades 6-12 who advance past both regional and state contests are invited to attend National History Day's national contest in College Park, Maryland. For more information, contact your NHD KY coordinator at kentucky@nhd.org or scan the QR code below.
