BC Cancer Agency

CARE + RESEARCH

An agency of the Provincial Health Services Authority

**Provincial Health
Services Authority**

Province-wide solutions.
Better health.

Medical Oncologist

BC Cancer Agency

Centre for the North - Prince George, BC

Regular Full-time

Join us at the newest BC Cancer Agency Centre which is one of the world's renowned cancer organizations as we work to improve access to services and enhance the continuum of cancer care in Northern BC. The Centre is located adjacent to the region's largest general hospital, the University Hospital of Northern BC. The Centre for the North began treating patients in November 2012.

Prince George is BC's northern capital with picturesque wilderness close at hand, offering a true outdoor person's paradise - plus year-round entertainment options, from symphony concerts and theatre to family fun activities. A great place to live! Prince George offers affordable housing, land prices and transportation costs (thanks to quick commutes), and has one of the lowest costs of living for a city of its size in the province. Getting to and from Prince George is easy. The city is located at the junction of two major highways which act as a gateway to Northern BC. The Prince George International Airport offers direct flights to Vancouver and other destinations daily.

You will use your extensive experience and qualifications to provide oncology consultation, patient care, teaching, and research. Our collaborative efforts and affiliation with the **University of Northern British Columbia** make this opportunity ideal for individuals who are looking to enhance their talents while making a province-wide impact.

You have obtained or are working towards Fellowship standing in the Royal College of Physicians & Surgeons of Canada in Internal Medicine, along with a certificate of Special Competence in Medical Oncology. You must also be eligible for licensing with the College of Physicians & Surgeons of British Columbia and meet the requirements of credentialing by the Professional Advisory Committee of the BC Cancer Agency. In addition, you should be eligible for a clinical appointment in the Division of Medical Oncology in the Department of Medicine at the University of British Columbia and for appointment to the Medical Staff at the Royal Inland Hospital.

A competitive compensation package is offered with the Northern BC Allowance, commensurate with experience, and includes generous relocation funding and employer paid benefits for you and your family.

Please forward your curriculum vitae, cover letter, or general inquiries to:

Dr. Stacy Miller, Regional Professional Practice Leader

BC Cancer Agency/Centre for the North

Email: smillers@bccancer.bc.ca

Applications will be accepted until the position is filled.
