

Hydra-Fense

12% Plant Available Silica Amendment

Hydra Fense is a 12% supplemental silica source compatible with low pH tank mixes and most common pesticides and fertilizers. Hydra-Fense provides a supplemental plant-available silica which serves to physically harden and protect the plant from stress and physical damage. Increasing soluble silica in plant tissue has shown beneficial growth, health and production responses within plants.

**CONTAINS A NON-PLANT FOOD
INGREDIENT:**

Silica (SiO₂).....12.0%

Derived from: **Silicon dioxide**

Net Weight: 22.75 lbs (9.1 lbs / gallon)

Net Contents: 2.5 Gallons

Application Rates:

Applications	Rates & Comments
Cool and Warm-Season Turf	Apply 1.5 – 3 oz per 1,000 ft ² in a minimum of 50 gallons of water
Use weekly or biweekly throughout growing season. Best results are seen from applications prior to stress occurrence.	

CAUTION: KEEP OUT OF REACH OF CHILDREN.
