

TURF SCREEN™

Enhanced Solar Protection™

Turf Max, LLC proudly introduces a revolutionary product engineered, tested and proven to protect turf from damaging ultraviolet rays and is effective at reducing sunburn and solar stress. Formulated with Enhanced Solar Protection, Turf Screen contains the only all-natural ingredients approved by the FDA for use in preventing sunburn. Turf Screen is 100% safe on turf, 100% safe on the environment and 100% independently evaluated to improve turf quality – even during the relentless summer of 2010.

Turf Screen Benefits:

- ☛ Complete Solar Protection for Turf (See back of this page for independent evaluation)
- ☛ Improved Turf Quality and Health (See back of this page for independent evaluation)
