

Download Includes:

- Easy to use Photoshop files
- 5 different Instagram Stories styles & 22 design files
- Customizable colors & editable text
- Fully optimised for Instagram Stories (1080x1920 pixels)
- Archivo-Bold, Inconsolata-Bold, Oswald-Bold, PlayfairDisplay-Black, Raleway-Black and WorkSans-Black Typefaces included

Before You Start:

All Photoshop files should be used in Photoshop CC. You can start [a free Photoshop trial here](#), and if you need help learning how to use Photoshop, check out this [tutorial](#). All photos included are from [Unsplash](#). Typefaces provided from [Google Webfonts](#).

How to Use:

HOW TO INSTALL THE TYPEFACES:

1. Open the Typefaces folder that contains Archivo-Bold, Inconsolata-Bold, Oswald-Bold, PlayfairDisplay-Black, Raleway-Black and WorkSans-Black files and double-click in each one
2. Click "Install Font"

HOW TO CHANGE COLORS FOR BACKGROUNDS & ELEMENTS:

1. Double-click the layer and the color window will appear
2. Choose a color and click "OK"
TIP: To keep your aesthetic consistent, use a set of colors or color palette for all of your Instagram Stories. You can find colour schemes on [Kuler](#).

HOW TO TO REPLACE IMAGES:

1. Double-click the layer and a new file will pop up
2. Add your image to this file and save it (Command + S)
3. The image will automatically save and reflect as such on the template file

HOW TO CHANGE COLORS FOR BACKGROUNDS & ELEMENTS:

- Option 1: Save them onto your phone and overlay images, texts, or GIFs on Instagram
- Option 2: Import the backgrounds onto [Canva](#) to design your Instagram Stories
