

## COVID -19 PANDEMIC

This pandemic has really changed the way we think, work, and now serve papers. We are doing everything we can to ensure the safety and well-being of our servers while serving papers. We at B T Edwards Process Service are advising and having servers serve papers wearing gloves and a mask as well as serving papers attempting to maintain the social distance at least 6' or more away from the defendant.

We are also finding that many people understand it is not weird in today's times to serve someone without handing them their papers. We are keeping social distance and verifying with the defendant their name prior to leaving the papers in their presents.

We will continue to conduct business Serving papers, Skip Tracing and Nationwide Service to name a few to help support you and or your business, to keep your workflow moving.

Let us all stay healthy, safe and help take care of each other.

Thank you for contacting us and for your continued patronage.

Billy T Edwards Jr.
