

PARTNER WITH LEASEUP

HELP BRING OUR NEIGHBORS HOME.

LOS ANGELES

LeaseUp is an initiative of PATH created to increase LA County's affordable housing inventory by collaborating with property owners and managers to help end homelessness in Los Angeles.

We believe homelessness can be solved through our collective action..

LeaseUp addresses the concerns of property owners and managers with a dedicated team of professionals to navigate the process. LeaseUp offers support, incentives and consistent assistance to increase the possibility of finding a home for more of our neighbors living on the streets.

In the last five years, PATH has helped nearly 8,500 of our homeless neighbors move into permanent homes. As of 2018, there are still more than 134,000 people experiencing homelessness in California.

Let's work together!
