

# Third Party Terms and Services

Certain features of our services and products may utilize the services and/or products of third-party vendors and business partners, which services and/or products may include software, information, data or other services. Some or all of these vendors and business partners may require Vidigami to agree to additional terms and conditions.

The terms and conditions specified by Third-Party partners are subject to change at their discretion. To view terms and conditions of individual third party partners, please refer below:

## Amazon Web Services

Amazon Web Services are utilized by Vidigami to provide service hosting and storage options to its customers. Some or all of the private data pertaining to organizations and individuals may be transmitted through, or stored within, these underlying services. Vidigami heavily restricts internal and external access to these services to ensure high standards of security and privacy are always met.

The terms set forth in <https://aws.amazon.com/service-terms/> apply to some or all products and features offered by the Vidigami service.

## Microsoft Azure

Microsoft Azure, and its associated services, are utilized by Vidigami to provide service hosting and storage options to its customers. Some or all of the private data pertaining to organizations and individuals may be transmitted through, or stored within, these underlying services. Vidigami heavily restricts internal and external access to these services to ensure high standards of security and privacy are always met.

The terms set forth in <https://azure.microsoft.com/en-ca/support/legal/> apply to some or all products and features within the Vidigami service.

## Creator Studio

Creator Studio is an affiliate service offered by Vidigami through the Service. While Vidigami's Agreements cover both of these products, additional terms must be accepted to create an account or use the product.

The terms set forth in <https://yearbooks.picaboo.com/eua/> will additionally apply to any account creator within the Creator Studio service.

### Kairos AR, Inc
