

Standards Analysis Reports allow teachers to view comparative data at the district, school and teacher level. Teachers may drill down to the individual class level to view standards performance data.

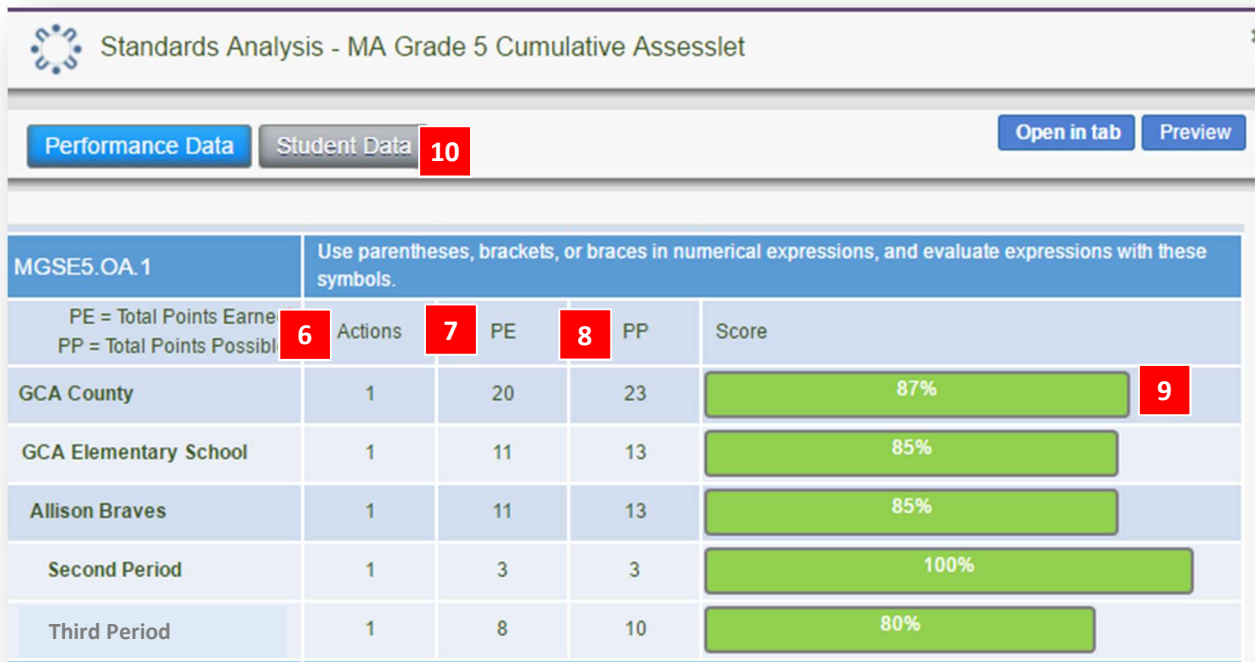

1. Select Reports from the left menu.
2. Select type of Learning Activity you want to view.

3. For teacher level reports, click on the vertical ellipsis for desired Assesslet in the teacher's row.
4. You will have two options. Select Standards Analysis.

*Tip- Minimize left panel for full screen view of Action's Details*

5. View the Standard Number and Standard Text.
6. Actions - Number of items assessing the standard.
7. PE- displays Points Earned.
8. PP- displays total Points Possible.
9. Bar Chart is a graphical percentage representation of Points Earned out of Points Possible.
10. Select the Student Data tab to view individual student results.
