

LOADING DOCK / DOOR & PARKING

Access to the Lensic loading dock/door is through an adjacent parking lot which requires additional time to coordinate. Please communicate parking needs with the Director of Production a minimum of four (4) weeks in advance of the show (David Carter, dcarter@lensic.org).

- Trucks and buses must arrive and be parked by **8:00am** and they must leave by **5:00am**
- Semi-trucks and buses with trailers will only fit where the red line is. Buses with no trailers may also park where there are yellow lines.
- Santa Fe has a small downtown area, with very narrow streets. Trucks and buses must be traveling North on Sandoval St. to make it into the parking lot.
- Entrance into the parking lot is through an electronic gate, a venue representative must meet the truck/bus to open it. The opening of the gate is 11' wide.
- Loading dock / door is located on the upstage right wall of the stage house and is at stage-level inside the building, and street level outside. Truck ramp or lift gate required for offloading. The venue does not provide truck ramps or a forklift.
- The loading door dimensions: 10'-11" wide x 10'-11" high.
- Shore power is available; venue does not provide cable.
- There is NO water hookup.
- A single bus with no trailer may be parked behind the venue at any time.
