WELCOME TO LEXUS

Thank you for your interest in Lexus. You’ve taken the first step into a world of thoughtfully engineered products, precision craftsmanship and unrivaled Guest care. Welcome to a luxury experience where we strive to treat you like a “guest in our home”.

Life can be full of pressures, yet also full of moments to capture and enjoy. Shouldn’t your vehicle be more than a simple mode of transportation? At Lexus, we want to give you the freedom to chase and experience those moments. That’s why we dedicate the time towards every vehicle and every service; so, you can make the most of yours.

We know time is the ultimate luxury and our brand promise is to focus our efforts on delivering vehicles, technologies and guest services that allow you to enjoy those special moments in life.

I invite you to explore our 2020 model selection. Whether it’s one of our luxury SUVs, a breathtaking coupe or a nimble performance sedan, I know there is a Lexus waiting to help you enjoy the drive and make time for amazing.

Robert Tsang
Director of Lexus Canada
EXPERIENCE SOMETHING GREATER

From the start, Lexus has redefined luxury. The Japanese principle of Omotenashi brings unrivaled Guest hospitality, with a dedication to treating everyone with warmth, care and respect as if they were a Guest in our own home. While cutting-edge design and exceptional attention to detail shows the meticulous craftsmanship of legendary Lexus Takumi Masters. Along with pioneering innovations, impassioned styling and a thirst for enhancing every drive, it’s a luxury experience unlike any other.
MAKE A LONG IMPRESSION IN A SHORT AMOUNT OF TIME

The real measure of exhilarating performance runs much deeper than a list of impressive statistics. At Lexus, we believe exhilaration is defined by a sense of confidence paired with an undeniable rush of adrenaline. It’s about feeling completely connected to the driving experience, and the feeling must be nothing short of amazing.
A SYMPHONY OF BEAUTIFUL SURROUNDINGS
Guided by our L-finesse design philosophy, the LC’s low stance and near-perfect 50/50 weight distribution reduces body-roll in corners. Coupled with an Alcantara-wrapped, driver-focused interior, and unique 20-inch forged aluminum wheels that are definitive of Lexus style. The list goes on for a flagship performance coupe.

BORN TO PERFORM
Powered by a naturally aspirated, 471 hp, 5.0 L V8 engine with a 10-speed, direct-shift automatic transmission, the LC 500 is capable of sprinting from 0 to 100 km in 4.4 seconds. When it comes to creating awe, there can be no compromise.

POWER, FINESSED

The strikingly assertive 2020 RC will captivate you even when standing still. Its low profile, sculpted body lines and refreshed front and rear styling aggressively slice the air as you’re cradled inside the performance-inspired cockpit. Exuding beautiful form and thoughtful function from headlight to taillight.
LOOKS THAT THRILL
With a captivating front fascia and strong, aerodynamic body lines, the RC is impressive from every angle. Its chiseled exterior and chassis rigidity, wide stance, low centre of gravity, and prominent wheel arches take your imagination for a joyride before the accelerator is even engaged.

THE CONFIDENCE OF CONTROL
Unleashing a maximum of 311 hp through its direct-injection, 3.5L V6 engine, you’ll feel the release of power and adrenaline in equal measure. RC’s All-Wheel-Drive System paired with multi-link suspension in the rear and available adaptive variable suspension allow you to master every corner.

BORN ON THE TRACK, READY FOR THE ROAD

A track car has never been this sophisticated. The 2020 RC F, with available Track-Edition Package, embodies the pinnacle of Lexus performance engineering. With a powerful, naturally aspirated V8 engine, jaw-dropping exterior styling, and a myriad of advanced features, the Lexus RC F is built from the asphalt up to thrill in every sense.
OWN THE ROAD AND THEIR ATTENTION
The aggressive design of the RC F commands attention. Aerodynamic stabilizing fins, quad-outlet exhaust tailpipes and front bumper ducts create a gorgeous flared profile to complement its stunning looks. While under the hood, the RC F boasts a naturally aspirated V8 engine with 472 hp that’s as powerful as it is beautiful.

DRIVEN TO DELIGHT
The RC F’s bold design is the perfect pairing of form and function. Sculpted for optimum aerodynamics and cooling, the signature spindle grille dominates from hood line to lower lip. Large air scoops flank the grille, followed by a performance-tuned underbody and aero stabilizing fins.

DRIVING INNOVATION FORWARD

Never one to remain idle, the IS pushes the boundaries of imagination in pursuit of a purer driving experience. A striking silhouette offers a tantalizing preview of what’s to come. A luxuriously detailed and meticulously crafted interior puts you behind the wheel of a vehicle that commands every single one of your senses, with features such as the LFA-inspired digital cockpit on F SPORT models.
THOUGHTFUL DESIGN. RENOWNED CRAFTSMANSHIP.

Purposefully designed, the elegant cockpit of the IS explores the limits of innovative possibilities. Offering seamless functionality, IS features standard Lexus Safety System+ and an available 10.3-inch display screen to keep you connected while you focus on the road ahead.

POWER AND CONTROL

The 241 hp IS 300 RWD features a turbocharged 2.0 L 4-cylinder engine, while the 260 hp IS 300, and 311 hp IS 350 AWD boast potent 3.5 L V6 engines¹. Every push of the accelerator gives you reason to anticipate the road ahead.

ALTER YOUR STATE OF DRIVE

After generations of success, the latest Lexus ES is forging a new, more ambitious path. Drivers already familiar with the series will find the 2020 ES more spacious, quieter and safer than ever before. For those who want more choice, the ESh offers a highly efficient, Self-Charging Hybrid. And for enthusiasts who seek a sportier drive, the ES is also available in F SPORT trim.
EVERY DETAIL, REFINED
The luxuriously appointed ES is an amazing place to be. Welcomed by a driver-focused cockpit, digital gauges and ergonomically superior seating. Expertly crafted stitching on the seats, steering wheel, instrument panel and gearshift is overseen by our ‘Takumi’ master craftspeople. Then, witness the exquisite interior trim that reflects the beauty of Japanese design traditions.

GO BEYOND ALL EXPECTATIONS
The ES boasts a 3.5 L V6 engine that brings exhilaration to the forefront. Enhancements in noise reduction and vibration allow you to focus on driving pleasure. And with Drive Mode Select, customizable driving dynamics provide you with more than enough force to leave an impression. The ES is also now equipped with the next generation of Lexus Enform technology, compatible with the all-new Lexus App.¹

What does it take to leave an impression? One that sets your heart racing. One that says more when idle than most do at top-speed. As a grand luxury sedan, the GS delivers adrenaline-charged performance, impressive luxury and intelligent technology, making its experience as captivating as its power.
### TURN EVERY ROAD INTO A RUNWAY

The GS raises the stakes with a potent 3.5 L V6 that produces 311 hp\(^1\). Paired with independent double-wishbone suspension and an impressive 0.27 aerodynamic drag coefficient, the GS will have you looking forward to every corner ahead.

### LOOKS GOOD ON PAPER. LOOKS EVEN BETTER IN REAL LIFE

An aggressively styled front fascia highlights our signature style eloquently, menacing the road head-on, and punctuating an instantly recognizable mark while you kick up dust in your wake. The distinctive quality of Lexus emanates from every square inch of the interior, pleasing every sense. Creating an environment so welcoming, you’ll immediately feel right at home.

EXCEPTIONAL IN EVERY SENSE OF THE WORD

Pairing a strikingly sophisticated exterior with the substance to support its style, the exhilarating 2020 GS F was designed to impress. With its commanding presence, it’s the most direct expression of raw performance and style in a four-door performance vehicle. The trademark “F” distinguishes the GS F as a sophisticated beast bred to dominate the road ahead.
POWER MEETS PRECISION
The 5.0 L V8 engine unleashes 467 hp with an 8-speed automatic transmission that will send your pulse racing with every acceleration. With Adaptive Variable Suspension and Torque Vectoring Differential, expect nothing less than a well-rounded powerhouse that ignites your drive into action.

THE MARK OF DISTINCTION
Impeccable styling makes drivers yield to take in the aggressive carbon fiber rear lip spoiler and 19-inch aluminum wheels. While 8-way power-adjustable front sport seats, a 12.3-inch Liquid Crystal Display and exclusive “F” steering wheel round-out an interior that radiates with power just waiting to be unleashed.

LUXURY LIKE NO OTHER

From the moment you grip the hand-stitched leather steering wheel, and feel the essence of pure luxury performance, you know. The LS isn’t just the peak of luxury, it revolutionizes what a luxury vehicle can and should be. It represents the seamless fusion of style, efficacy, and effortless power, to create a familiar, yet distinct experience. As the fifth generation of the vehicle that started it all, the LS embraces our past to speak volumes of our future. Because you can’t build a legacy, without a solid foundation.
AN UNMATCHED EXPERIENCE IN EVERY WAY

Unique, commanding and unmistakable are words that hardly do it justice. Drawing from historic Japanese traditions, the interior of the LS perfectly fuses the contemporary and the classical. For Takumi master craftspeople, the delight is in the details. Enjoy the unrivalled luxuries of features such as massage seating, or available power extendable Ottoman and Climate Concierge.

A VISION OF INTELLIGENT BEAUTY

The sculpted coupe-like silhouette of the LS is crafted out of ultra-high tensile steel for lower weight and rigidity. Every sweep of the bodylines signifies a renaissance of the model that challenged the segment since its inception. One that looks to set the bar of what a luxury vehicle should be. Efficient venting improves aerodynamic stability and brings every piece together to form a vehicle that exudes confidence and garners awe.

IN A CLASS OF ITS OWN

The Lexus UX is perfectly crafted for city-smart driving. A bold iteration of the Lexus Spindle Grille, coupled with beautifully flared fenders, striking aluminum wheels with a world-first aerodynamic design and stunning high-output headlights emphasize UX's strong crossover qualities. Rear combination lamps connected by a continuous single line of 120 LED lights further highlight UX's unique character and cutting-edge design.
Inside, the UX’s interior is everything you would expect from Lexus. Harmonious design to contemporary finishes welcome the driver and passengers alike. A driver-centric cockpit offers a commanding view of the road, with controls perfectly at hand. In addition to superior ergonomics, UX offers technologies designed to elevate the drive such as, Apple CarPlay™ and Android Auto™ that works in harmony with standard Lexus Enform,® wireless phone charging, head up display, and backup camera. The newest version of Lexus Safety System+ 2.0, a suite of driver-assisted technologies, comes standard with pre-collision and Lane Tracing Assist to help make each drive a safer one.®
AGILE, IN EVERY POSSIBLE WAY

To further its bold characteristics, UX is the first Lexus vehicle to be built on the all-new Global Architectural Platform. Setting the tone for its dynamic performance, UX boasts increased structural rigidity and a low centre of gravity, offering quick handling response with exceptional stability. To further highlight a formidable features set is an available Self-Charging Hybrid powertrain with eAWD capability. The UX 250h produces an impressive 181 net horsepower, while boasting the best fuel-efficiency in its class. For those who want to further amplify their style, an optional F SPORT package is available on UX. Offering bold styling cues along with enhanced driving dynamics.

It has been luxuriously appointed and made surprisingly spacious. It has been created to be the finest luxury compact SUV. The commanding NX 300 and 300h set the benchmark for expressive style and exhilarating performance. Whether you choose the power of the turbocharged NX F SPORT or the flexibility of the NXh Self-Charging Hybrid Electric, it’s a vehicle that shows just what happens when you realize that even the best experiences can still be improved upon.
THE ONLY BUMPS COME WHEN YOUR HEART SKIPS A BEAT

The Lexus NX provides effortless performance with its 2.0-litre 4-cylinder direct injection turbocharged engine. Paired to a 6-speed ECT with sequential shift, imposing dual exhaust ports, and independent double wishbone suspension in the rear keep the NX 300 in check. Available F SPORT packages recalibrates the suspension and dynamics to satisfy even the most spirited drivers.

ELEMENTS YOU’LL FIXATE OVER. WE DID.

The Lexus NX rewards the driver and passenger alike with luxurious details and thoughtful technology. The available 10.3-inch audio display screen provides key information, while standard Lexus Enform, with Apple Carplay™ and Android Auto™ compatibility, delivers thoughtful connectivity.³ Available F SPORT models feature sport-inspired details including circuit-red leather details along with impressive aluminum trim.

ELEVATED PERFORMANCE

The goal of the 2020 RX was to create a stronger connection between driver and road. The smooth, luxurious drive is improved with an enhanced suspension. Revised side grilles optimize aerodynamics for a more exhilarating experience. Elevate your everyday drive with available F SPORT packages, and newly installed performance dampers greatly improve handling.

TECHNOLOGY AND CRAFTSMANSHIP IN PERFECT BALANCE

The RX greets you with unending luxury. Gaze at the available 12.3-inch display, now conveniently controlled by responsive touchscreen or redesigned touchpad. The RX is the first Lexus vehicle with the next generation Enform technology, and offers compatibility with Apple CarPlay™, Android Auto™ and the highly-intuitive Lexus App. From a meticulously hand-stitched dash to the heated leather steering wheel, a luxury interior has never felt this good, and with the newly available Birch finish, it’s never looked this good either.

ALL BEAUTY, ALL BEAST

Step into the newly refreshed 2020 GX 460 and experience how Lexus has fused luxury and true function like never before. With exquisite comforts and expressive styling that include a redesigned grille and striking headlights, you’re sure to make a statement in any situation.
COMMAND YOUR SURROUNDINGS
With sumptuous comfort and thoughtful convenience, long drives in the GX are something to look forward to. The driver’s cockpit excels with advanced ergonomics. From there, you can immerse yourself in the sonic experience of the 17-speaker Mark Levinson® Premium Audio System with 7.1 channel surround sound and integrated XM® Satellite Radio. If the sudden urge to take the scenic route strikes you, the GX offers voice-activated HDD Navigation system and a smooth yet highly capable chassis that inspires you to push forward.

FORTUNE FAVOURS THE PREPARED
GX pairs brute strength with elegant dynamism. Its 4.6 L V8 eagerly awaits acceleration. And when the GX wants to put its muscle on display, a trailer-grabbing 329 lb-ft of torque and A-Trac 4-wheel traction control paired with all-new Enhanced 5 Stage Crawl Control make light work of any situation.

LUXURY, IN ITS MOST CAPABLE FORM

In every aspect, the Lexus LX 570 over-delivers. Feel a menacing sense of power the moment you push the ignition. Every detail demonstrates the very best, melding highly capable performance characteristics with uncompromising refinement, ensuring you always have the peak of luxury, versatility and confidence at your fingertips.
MAKE THE MOST OF YOUR INTERIOR, WITH THE MOST INTERIOR

Amply accommodating both passenger and driver, the LX is equipped with generous seating for eight, a four-zone independent climate control system, voice-activated navigation and 19-speaker Mark Levinson®. Taking you to a different world even at a standstill.

A FORCE TO BE RECKONED WITH

The LX is all about making your presence felt. And there’s nowhere that’s more apparent than by looking under the hood. Because here lies a 5.7 L V8 with 403 lb-ft of torque. But how do you rein in all that raw power? With a superb 8-speed sequential-shift transmission and an adaptive Variable Suspension System that makes instantaneous adjustments as you drive so your command of any country road, trailer or onramp is absolute.

Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached. Lexus reminds you to place small children in CSA-approved car seats – in the rear seats, to always wear your seatbelts, and to drive safely. 1. Horsepower/Performance: Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements. Fuel Ratings: Estimates determined using approved Government of Canada Test Methods. Actual fuel consumption will vary based on driving habits and other factors. Refer to the Government of Canada Fuel Consumption Guide for further information. 2. For all safety features, System effectiveness depends on many factors. Please see your Owner’s Manual for further information and a complete list of limitations and directions. Lane Departure Alert is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. Lane Trace Assist is designed to read the lane markers of certain roads. If the vehicle approaches the outer limits of its lane, the system warns the driver that corrective action may be required. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. Do not rely exclusively on the Rear Cross-Traffic Alert System. There are limitations to the function, detection and range of the system. You should also look around outside your vehicle, over your shoulder and use your mirrors to confirm rearward clearance. Do not rely exclusively on the Blind Spot Monitor System to determine if a lane change is safe. Always look over your shoulder and use your turn signal before changing lanes. There are severe limits to the function, detection range and clarity of the monitor system. Dynamic/Radar Cruise Control was designed to assist the driver and is not a substitute for safe and attentive driving practices. System effectiveness depends on many factors, such as speed, driver input and road conditions. Automatic High Beam feature can help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the high beams from on to off. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. All the airbag (“AB”) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, rollover or lateral G-force.

1. Pre-collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed,driver input and road conditions. The Pre-collision System is designed to help improve vision at night. However, conditions such as a dirty windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually adjust the high beams from on to off. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. All the airbag (“AB”) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, rollover or lateral G-force. 3. The Navigation System is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Refer to your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner’s Manual for further details. NAVIGATIONAL SYSTEMS IN SOME VEHICLES ARE AVAILABLE WITH BILINGUAL CAPABILITY. 4. Mark Levinson® is a registered trademark of Harman International Industries Incorporated. Be sure to obey traffic regulations and always maintain awareness of road and traffic regulations. Apps/Services vary by phone/carrier; functionality depends on many factors. Select Apps use large amounts of data, you are responsible for these charges. Contact with the response centre may not be available in all areas. Service agreement required. A variety of subscription terms available. Charges will vary. [CN2] Lexus App: Driving while distracted can result in loss of vehicle control. Obey all local laws concerning the use of the systems while driving as some laws prohibit the use of electronic devices while operating a vehicle. Enform Services are dependent upon connection to a 3rd party compatible wireless cellular network, either 3G GSM/GPRS or LTE. Lexus is not responsible for cellular network discontinuance. Select Enform apps and services use significant amounts of data and customers are responsible for all data charges. Apps and services vary by phone/carrier and not all services are available all the time and in all locations. Smartphone operating system updates may affect connectivity between your phone and vehicle. Lexus is not responsible for connectivity issues. Enform Remote and Service Connect: Do not remotely start engine if vehicle is in an enclosed space or vehicle is occupied by a child. Enform Remote and Service Connect are dependent upon an operative telematics device, a cellular connection, navigation map data and GPS satellite signal reception, and other factors outside of Lexus’ control. Registration and app download are required. Select Apps use large amounts of data; you are responsible for charges. To learn about Enform data collection, use, sharing and retention, please visit www.lexus.ca/enform-privacy. The Enform Remote and Service Connect trial period is at no extra cost after which enrollment in a paid subscription is required. Terms and conditions apply. See lexus.ca/enform for full details. Amazon Alexa: Amazon, Alexa and all related logos are trademarks of Amazon.com, Inc. or its affiliates. Skills and services subject to change at any time without notice. Three-year complimentary trial; app downloads required. Enform Destination Assist: Be sure to obey traffic regulations and maintain awareness of road and traffic conditions at all times. The Destination Assist trial period is at no extra cost after which enrollment in a paid subscription is required. Terms and conditions apply. Enform Safety Connect: Contact with Safety Connect™ response centre is dependent upon the telematics device being in operative condition, cellular connectivity availability, and GPS satellite signal reception, which can limit the ability to reach the response centre or receive emergency support. The Enform Safety Connect trial period is at no extra cost after which enrollment in a paid subscription is required. Terms and conditions apply.
