

FRIENDSHIP CORD

MEMORY SCRIPTURE

Two are better than one, because they have a good reward for their labor.

—Ecclesiastes 4:9

Materials:

3 cord pieces

Tape or clipboard (optional)

To assemble your Friendship Cord, here are the step-by-step instructions:

Step 1: Prepare your strands.

- Line up all 3 cord pieces and fold them in half, holding onto the folded end. Tie an overhand loop knot to create a small loop on the end.
- Separate the strands into three equal sections.
- You may tape the end to a flat surface to keep it from moving around.

Step 2: Start braiding.

- Separate the strands into the 3 groups, keeping the same colors with each other.
- Take the strand color that is on the far right and bring it over to the middle color.
- Take the strand color that is on the far left and bring it over to the middle.
- Repeat this pattern, taking the rightmost strand color to the middle, and then the leftmost strand color to the middle.

Step 3: Continue and finish.

- Keep repeating the braiding steps, pulling the strands tight with each pass to keep the braid neat.
- Braid until you get near the end.
- Tie another overhand knot with all the cords at the end to secure the braid.
- To make it a bracelet, wrap it around wrist and tie the tail ends to the loop. To make into a keychain, attach loop through the keychain.
- Give to a friend!
