NOTES:

1. All information as of May 22, 2018.

2. Some state conventions no longer use the designation of church-type mission to categorize congregations which are not self-determining, self-sustaining, and self-propagating. This practice has impacted the number of churches and church-type missions.

3. Total impacted by incomplete data from some state conventions. See body of table and notes for details. Care should be exercised in comparing SBC totals to previous years.

4. Alabama State Board of Missions, Georgia Baptist Mission Board, and the Baptist General Convention of Oklahoma did not ask the following item or the information necessary to obtain the item: Total Mission Expenditures.

5. California Southern Baptist Convention did not ask the following items or the information necessary to obtain the items: Other Additions and Total Receipts.

6. Florida Baptist Convention did not ask the following items or the information necessary to obtain the items: Other Additions, Sunday School/Bible Study/Small Group Average Attendance and Total Mission Expenditures.

7. New York Baptist Convention did not ask the following items or the information necessary to obtain the items: Other Additions, Total Receipts, and Total Mission Expenditures.

8. Two state conventions exist within the state of Texas. The Texas summary line does not show the arithmetic sum of the two state convention figures, because some congregations are related to both state conventions, and their numbers are reflected in the totals for both state conventions.

9. Southern Baptists of Texas Convention did not ask the following item or the information necessary to obtain the item: Other Additions.

10. Two conventions exist within the state of Virginia. The Virginia summary line does not show the arithmetic sum of the two state convention figures, because some congregations are related to both state conventions, and their numbers are reflected in the totals for both state conventions.

11. This line includes four types of adjustments to the data:

- The removal of duplicate data caused by 773 congregations that are related to more than one state convention.
- The removal of data from 132 congregations related to a state convention but not related to the SBC.

tion but not related to the SBC.

c. The addition of data from 1,601 congregations affiliated with the SBC but not related to a state convention.

d. The addition of data carried forward from previous ACP reporting cycles for 7,219 congregations that did not report in 2017.

12. Adjustments to the national totals (and some state convention totals) include data carried forward for non-reported items from data reported in prior years.

a. Totals include carried forward Total Membership from the last year the congregation reported it.

b. Totals include carried forward Weekly Worship Average Attendance and Sunday School/Bible Study/Small Group Average Attendance from the most recently reported data from the prior 2 years.

c. Totals include carried forward Total Receipts, Undesignated Receipts, and Total Mission Expenditures from the most recently reported data from the prior 4 years.
