

**KILL THE TERMITE
QUEEN.
KILL HER SUBJECTS.
CRUMBLE HER
COLONY.**

Over time, liquid treatments break down, leaving your home vulnerable to termite invasion. Not the Sentricon® System. Once installed, it forms a ring of protection. Sentricon turns termites' biology, their constant foraging, their very nature, against them. They prefer Sentricon more than wood, so they eat it. When they eat it, they can't molt. When they can't molt, they die. And when the colony dies, the Queen dies.

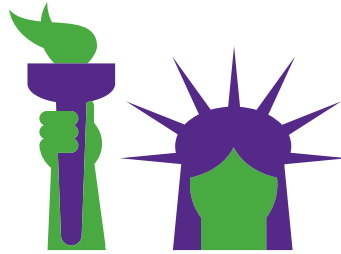

DEFEAT THE TERMITE QUEEN.
