Your Role

Teacher Resources

Resources to support syllabus development are accessible from the [AP Course Audit Teacher Resources](#) page.

Example Textbook Lists

The College Board has partnered with [Learning List](#), an independent review service for schools and districts, to provide in-depth reviews of the materials included on the example textbook lists, including a detailed review of each material's alignment to the curriculum framework for the AP course. The reviews and tools on Learning List will provide teachers ongoing support in using the materials effectively. More information about these reviews can be found on the subject specific Example Textbook Lists.
