Output: 200 lumens

Throw: 10 yards

Runtime: 10 min

Battery: 1x18650 or 2xCR123A

Waterproof: IPX8

LED Color: Red or Green

Super Bright for Night Hunting

100% colored LEDs mean your light is brighter and goes farther than filtered light. Each unit is manufactured from aviation-grade aluminum and designed to withstand extreme heat, cold and moisture.

High Performance & Durable

Orion hunting lights use colored LEDs that are undetectable to hog, coyote and other predators, allowing hunters to spot their target without spooking.

Accessories & Kits Available

Don't forget to ask about accessories like remote pressure switches, mounting kits, batteries and chargers. Orion lights can be purchased separate or part of a kit.
