STYLISH GLASSES/GREAT CUSTOMER SERVICE

I just bought my second pair of Sullivan readers and I'm sure I will be ordering more! From the price point, frame quality and ease of ordering, I choose LOOK OPTIC over Warby Parker every time.

MY FAVORITE READING GLASSES

I've purchased all kinds of reading glasses, both drug store brands and expensive designer brands, and the only ones I always reach for are my LOOK OPTIC. They are light and flexible and all the colors are really nice looking. Their customer services is also amazing.

MY FAVORITE READING GLASSES

I've been purchasing all kinds of reading glasses for a while, both drug store brands and expensive designer brands at my eye doctor's office, and the only ones I always reach for are my lookoptics. I lost my screen readers on vacation and ordered again when I came back. They are light and flexible and all the colors are nice looking.

LOVE LOOK OPTIC!

I am so impressed with this company. The reading glasses are so stylish and comfortable. I ordered the wrong prescription and they immediately substituted with a new pair, free shipping, no problems. What more can you ask for? I am a big fan!!!

EXCEPTIONAL VALUE

My Abbey Readers measure up to the top end designer frames on the market and are more comfortable as well. I had some questions and Andrew provided a timely and thorough response. I see myself owning several pairs. (Pun intended)

GREAT GREAT

I hate reading glasses, hate hate hate them. But since I need them, I want glasses that are comfortable and simple and do the job flawlessly. I've tried the cheap ones, I've tried Scojo, Izipizi... and now Look. I think the Look readers are the most comfortable, the simplest, and the best looking. The quality of the lenses seems excellent and I actually (hate to admit it) kind of enjoy wearing them.
