

## College of San Mateo College Center

SAN MATEO, CALIFORNIA

This new 140,000-square-foot, four-story building allows the college to centralize all student and administrative service functions. This facility houses student service functions, including financial aid offices, international student services, counseling offices, career services, student employment services, testing offices, a multi-cultural center, disabled students services, student activity offices, a bookstore and a cafeteria. It incorporates classroom features such as student support labs, broadcasting labs, electronic music/digital audio labs/studios, multimedia, journalism and lecture rooms. There are also faculty offices and meeting rooms. This project is LEED NC Gold
