

Sage Hill School Aquatic and Tennis Centers

NEWPORT COAST, CALIFORNIA

Sage Hill School's Tennis and Aquatics Center provides a state-of-the-art, on-campus venue for its students and community. Historically, student athletes in competitive swimming, water polo and tennis would have to practice and compete off-campus. The new center allows students to practice and compete at their home campus.

Fostering a sense of school pride for these athletes, the center provides on-site facilities that include six, well-lit tennis courts, a 25-yard by 33-meter competition pool and a 2,100-square-foot aquatics building that houses an office, training room, team rooms, restrooms and pool equipment storage. An entry plaza and festival lawn provide space for pre- and post-function activities, as well as a gateway to the campus and athletic core.
