

NEVADA STATE
UNIVERSITY

MSN Fact Sheet

In Brief

The Master of Science in Nursing (MSN) Leadership track is designed to support Registered Nurses in the pursuit of excellence in healthcare. The fully online and innovative curriculum grounded in Caring Science spans essential nurse leader content using active learning modalities and practice experiences that positively contribute to health outcomes. Our focus on caring and competence provides students with the knowledge and skills needed to develop a safe, effective, inclusive, and caring advanced nursing practice specialty.

Our Mission

The Nevada State University School of Nursing fosters excellence in healthcare by providing innovative and evidence-based education. Our focus on caring and competence leads to improved health, safety, and cultural awareness for all participants within the communities served. With the intentional structuring of the curricula in the caring science based upon the work of nurse theorist Dr. Jean Watson, our faculty are here to support you on your journey to academic and professional success and inspire you to be compassionate as you provide nursing care to patients and their families.
