

How to Run a Degree Evaluation

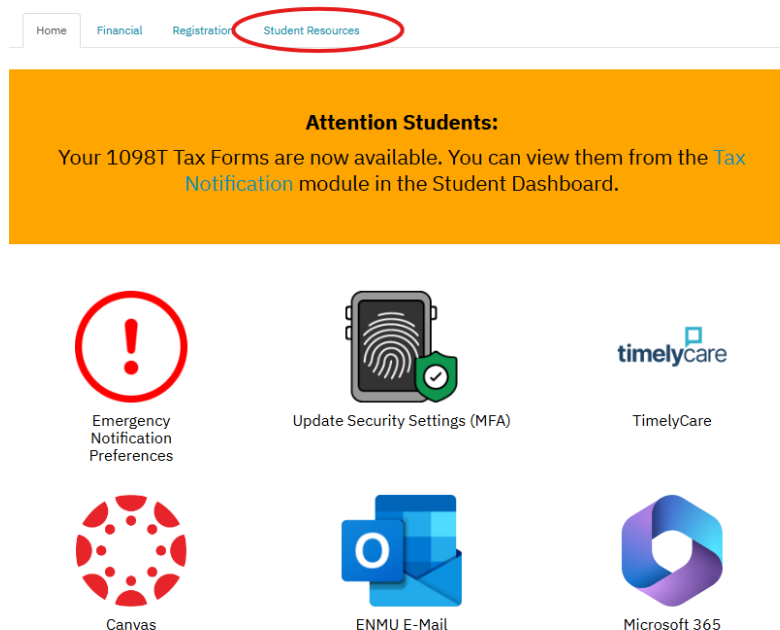

Your Degree Evaluation is a helpful tool for tracking your progress with your certificate/degree. This report shows you:

- which classes are required for your certificate/degree
- which classes you have completed
- which classes are not used for your certificate/degree
- the classes you are currently registered in (if applicable)

You are also able to see your final grades for classes and cumulative GPA. To access your Degree Evaluation, follow the steps below:

Degree Evaluation Steps

1. Log into your CosmoLink and select your “Student Resources” tab.

2. From your resource list, select “Degree Evaluation.”

3. The next page will show your Degree Evaluation.

Note: If the major that is listed is NOT your major, contact the Student Services Center to complete a change form.
