4.2 USE OF SERVICE ANIMALS, ASSISTIVE DEVICES, AND SUPPORT PERSONS

Greenwin will strive to ensure that the access, use and benefit of goods or services are not compromised for customers with disabilities who require assistive devices, or who are accompanied by a service animal or support person.

4.2.1 SERVICE ANIMALS

Service animals accompanying a customer with a disability shall be permitted entry to all Greenwin's facilities and meeting rooms that are open to the public or other third parties, unless the service animal is otherwise excluded by law.

If it is not readily apparent that the animal is a service animal, Greenwin may ask the customer with a disability to provide a letter from a physician or nurse confirming that the person requires the animal for reasons relating to the customer's disability. It is the responsibility of the customer using the service animal to ensure that the service animal is kept in control at all times.

Greenwin's employees will receive training on how to interact with customers with disabilities who are accompanied by a service animal.

In the rare case where Greenwin cannot permit a service animal access to a facility or meeting room, other accommodations may be provided to the customer such as: alternate meeting format, e.g. teleconference where technology permits; delivery of goods or service at an alternate time or location; other assistive measures available to deliver a good or service to ensure equality of outcome.

4.2.2 ASSISTIVE DEVICES

Customers with disabilities are permitted, where possible, to use their own assistive devices when on Greenwin's premises for the purposes of obtaining, using or benefiting from our goods or services. Exceptions may occur in situations where Greenwin has determined that the assistive device may pose a risk to the health and safety of another person with a disability or the health and safety of others on our premises.

If there is a physical, technological or other type of barrier that prevents the use of an assistive device on our premises, we will first endeavour to remove that barrier. If we are not able to remove the barrier, we will ask the customer how he/she can be accommodated and what alternative methods of service would be more accessible to him/her. We will make best efforts to provide an alternative means of accessibility to the customer.

It should be noted that it is the responsibility of the person with a disability to ensure that his or her assistive device is operated in a safe and controlled manner at all times.

Greenwin will ensure that staff receive training on various assistive devices that may be used by customers with a disability while accessing our goods and services.

For such events, support persons shall be permitted entry to all Greenwin facilities and meeting rooms that are open to the public, except: when there are fees applied against participants by a third party and the support person was not pre-registered and/or no vacancy exists. If admission to an event is permitted and fees are payable to a third party, the support person is permitted to attend the event at their own cost. Cost for services (e.g. food, lodging, etc.) will be the responsibility of the customer or his or her support person.

If admission to an event is permitted and fees are payable to Greenwin, the support person is permitted to attend at no cost for admission. Cost for other services (e.g. food, lodging, etc.) will be the responsibility of the customer or his or her support person.

When a Support Person May Be Required

If a support person is necessary for the health and safety of a person with a disability, or for the health and safety of other persons, Greenwin will require the accompaniment of a support person on Greenwin premises.

Where a Greenwin employee believes that a support person should be in attendance to protect the health and safety of the customer with a disability or others, the following criteria shall be used in consulting with the customer:

- whether there is a significant risk to the health and safety of the customer with a disability or to others (the mere possibility of risk is insufficient);
- whether the risk cannot be eliminated or reduced by other means;
- whether the assessment of the risk is based on consideration of the duration of the risk, the nature and severity of the potential harm, the likelihood that the potential harm will occur, and the imminence of the potential harm; and whether the assessment of the risk is based on the customer's actual characteristics, not merely on generalizations, misperceptions, ignorance or fears about a disability.

A customer with a disability is required to provide his or her own support person. A customer who requires the assistance of a support person is also expected to inform Greenwin that he or she will be attending with a support person.

4.3 TEMPORARY DISRUPTION TO FACILITIES OR SERVICES

In the event that a temporary service disruption occurs that would limit a customer with a disability from gaining access to Greenwin facilities, goods or services, Greenwin will make the disruption known to customers in the following ways:
