

Build a Resume

You can create a new resume through

<https://www.resume-now.com/build-resume/onboarding/industry>

then download the finished resume. Or use the one I found by downloading it from [HERE](#) and putting in your info.

When you finish the resume, if you send it to me I can print several copies for you.

Also there are some free places here in Greensboro to help with finding employment.

<https://guilfordworks.org/services/adult-services/>

and advice on good resumes and cover letters

<https://library.greensboro-nc.gov/home/showpublisheddocument/11140/636510647144300000>

It's been many years since either of us put together a resume so I'd use all these resources.

Any other help I can give you, let me know.
