

# KARMA 360

## Designed To Replace The Mop & Bucket

The K360 is a compact, battery powered, automatic micro-scrubber / dryer that dramatically increases productivity and provides improved cleaning results.

Providing the maneuverability of a mop, bucket, and ringer, the K360 offers all of the cleaning performance of a walk-behind automatic floor scrubber, while dramatically reducing water and chemical usage.

Join the movement sweeping the industry to Ban The Mop™ by adding the K360 to your cleaning arsenal.

## THE NEW STANDARD IN SMALL SPACE CLEANING

Enhanced Facility Image

Increased Productivity

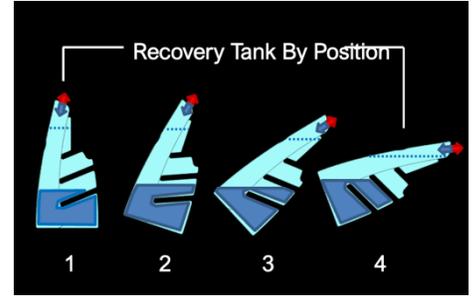

Improved Profitability

User Friendly Design

Reduced Repair Costs

Patented solution recovery tank avoids vacuum motor flooding and motor failure that is common on competitive models.

Designed for ease of use, the K360 has a patented locking mechanism that allows the operator to quickly leave the unit momentarily while the brushes are still on the floor, as well as locking the unit in the storage / transport position with the brushes off the floor.

Mopping has never been easier or faster. The K360 applies cleaning solution, scrubs, and recovers it one pass. Thanks to an articulating handle, the K360 is the new standard in small space cleaning.

Extended coverage and run-time is as simple as purchasing an extra optional battery and swapping it out with the battery that comes standard with the unit while placing the original battery on charge.

**BECAUSE IT MATTERS**

American businesses and workers are the backbone of our nation, and keeping manufacturing in the U.S. helps maintain our economic independence. Designed, tooled, and assembled in the U.S.A., the K360 represents American values and the desire to be the best. Designed by industry veterans that understand and appreciate the unique demands of the American market, the K360 is built to be robust and reliable, while offering ease of service. Designing a product and interface that considers the user's aims and offers the simplest means of achieving those goals is the height of design sophistication and we are confident that you will agree the K360 accomplishes that goal.

Karma 360 – K360	
Type	Walk Behind Micro-Scrubber
Brushes	Twin Counter Rotating 9 in / 229 mm
Cleaning Path	18 in / 458 mm
Productivity Theoretical (per hour)	19,375 sq. ft. / 1800 sq. m.
Practical Performance (per hour)	10,764 sq. ft. / 1,000 sq. m. to 14,000 sq. ft. / 1,300 sq. m.
Brush RPM	350
Solution Tank Capacity	1 gal / 4 L
Recovery Tank Capacity	1.5 gal / 6 L
Battery Run Time (80% Charge)	Up to 70 minutes
Power Source	One Lithium-Ion Pack (25.2V, 21AH, 529WH)
Length x Width x Height	14 in x 19 in x 50 in / 356 mm x 483 mm x 1270 mm
Weight	49.65 lbs / 22.52 kg

*Specifications subject to change. Productivity and run time will vary based on selected operating functions, floor types and conditions. Designed, tooled, and assembled in the USA, the K360 contains domestic and globally sourced components. Karma 360 is committed to as high of US content as possible.*
