

Acqua VERA

Acquavera Bracket System

Our newest dispenser program, the luxurious Acquavera system, features a sleek tamper-resistant bracket that pairs with our elegant pump dispenser amenity bottles. The robust ABS plastic holder is extremely durable and installation is easy with a secure mounting system that requires no drilling.

Replacement or refill of the bottles is quick and easy using the convenient simple to use key. The eco-friendly dispenser bottles are made of the food grade PET material, one of the most recyclable plastics available today.

Beauty, ease of use and earth-conscious materials make the Acquavera dispenser system the ideal amenity system.
