College alternative for software engineers and entrepreneurs

#### Bilingual VWO, Rijnlands Lyceum Sassenheim

2006 – 2013 in The Netherlands

Math, management & organization, physics, chemistry, English, German

“ For me, Jeroen is an example of the new type of UI designer. He's young and does not fit into a particular profile. A good thing. On one hand, he has knowledge of form and typography; on the other hand, he is a die-hard developer who takes on complex assignments with pleasure. Valuable in all online projects. Although Jeroen is still young, he is super to work with on high-level projects. A talented colleague, with whom you can laugh. ”

Bart van de Biezen

Apple Design Award winner, UI Designer,  
Partner at Aan Zee Communicatie
